FORM 10-Q

(Mark One)

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended March 31, 2018
OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-16577

(Exact name of registrant as specified in its charter).

Michigan
(State or other jurisdiction of
Incorporation or organization)

5151 Corporate Drive, Troy, Michigan
(Address of principal executive offices)

38-3150651
(I.R.S. Employer
Identification No.)

48098-2639
(Zip code)

(248) 312-2000

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and formal fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or

an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if smaller reporting company)	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act .

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No .

As of May 3, 2018, 57,433,671 shares of the registrant's common stock, \$0.01 par value, were issued and outstanding.

PART I. FINANCIAL INFORMATION

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is Management's Discussion and Analysis of the financial condition and results of operations of Flagstar Bancorp, Inc. for the first quarter of 2018, which should be read in conjunction with the financial statements and related notes set forth in Part I, Item 1 of this Form 10-Q and Part II, Item 8 of Flagstar Bancorp, Inc.'s 2017 Annual Report on Form 10-K for the year ended December 31, 2017.

Certain statements in this Form 10-Q, including but not limited to statements included within the Management's Discussion and Analysis of Financial Condition and Results of Operations, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements are based on the current beliefs and expectations of our management. Actual results may differ from those set forth in forward-looking statements. See Forward-Looking Statements on page 30 of this Form 10-Q and Part I, Item 1A, Risk Factors of Flagstar Bancorp, Inc.'s 2017 Annual Report on Form 10-K for the year ended December 31, 2017. Additional information about Flagstar can be found on our website at www.flagstar.com.

Where we say "we," "us," "our," the "Company," "Bancorp" or "Flagstar," we usually mean Flagstar Bancorp, Inc. However, in some cases, a reference will include our wholly-owned subsidiary Flagstar Bank, FSB (the "Bank"). See the Glossary of Abbreviations and Acronyms on page 3 for definitions used throughout this Form 10-Q.

Introduction

We are a savings and loan holding company founded in 1993. Our business is primarily conducted through our principal subsidiary, the Bank, a federally chartered stock savings bank founded in 1987. We provide commercial and consumer banking services and we are the 5th largest bank mortgage originator in the nation. At March 31, 2018, we had 3,659 full-time equivalent employees. Our common stock is listed on the NYSE under the symbol "FBC." We are considered a controlled company for NYSE purposes, because approximately 62.0 percent of our common stock is owned by MP Thrift Investments, L.P. which is managed by MatlinPatterson, a global asset manager.

We have a relationship-based business model which leverages our full-service bank's capabilities with our national mortgage scale to create and build financial relationships with our customers. Our banking network emphasizes the delivery of a complete set of banking and mortgage products and services. We distinguish ourselves by crafting specialized solutions for our customers, local delivery, high quality customer service and competitive product pricing. Our community bank growth model has focused on attracting seasoned bankers with larger bank lending experience who can attract their preexisting long-term customer relationships to Flagstar. At March 31, 2018, we operated 107 full service banking branches, including 99 throughout Michigan's major markets and eight Desert Community Bank branches in San Bernardino County, California, which we acquired on March 19, 2018. Our branches offer a full set of banking products to consumer, commercial, and government customers.

We originate mortgages through a wholesale network of brokers and correspondents in all 50 states, and our own loan officers from 92 retail locations in 31 states and two call centers, which includes our direct-to-consumer lending team. The Bank has the opportunity to expand correspondent relationships by providing warehouse lending, mortgage servicing and other services. Servicing and subservicing of loans provides fee income and generates a stable long-term source of funding through custodial deposits.

Operating Segments

Our operations are conducted through our three operating segments: Community Banking, Mortgage Originations, and Mortgage Servicing. Additionally, our Other segment includes the remaining reported activities. For additional information, please see MD&A - Operating Segments and Note 18 - Segment Information.

Common equity-to-assets ratio	8.05%	8.27%	8.92%
Bancorp Tier 1 leverage (to adjusted avg. total assets) (4)	8.72%	8.51%	9.31%
Bank Tier 1 leverage (to adjusted avg. total assets)	9.08%	9.04%	10.74%
Number of bank branches	107	99	99
Number of FTE employees	3,659	3,525	2,948

- (1) Fallout adjusted refers to mortgage rate lock commitments which are adjusted by a percentage of mortgage loans in the pipeline that are not expected to close based on previous historical experience and the level of interest rates.
- (2) Interest rate spread is the difference between the annualized yield earned on average interest-earning assets for the period and the annualized rate of interest paid on average interest-bearing liabilities for the period.
- (3) Excludes goodwill and intangibles of \$72 million, \$21 million, and \$4 million at March 31, 2018, December 31, 2017, and March 31, 2017, respectively, included in Other Assets on the Consolidated Statement of Financial Condition. See Non-GAAP Financial Measures for further information.
- (4) The Basel III transitional phase-in rules were applicable to December 31, 2017 and March 31, 2017.

Overview

The first quarter of 2018 resulted in net income of \$35 million, or \$0.60 per diluted share, up \$8 million or \$0.14 per diluted share compared to the first quarter of 2017. The results of the quarter demonstrate our efforts to diversify our business through both organic growth and acquisitions.

The Community Bank continued to add high-quality, relationship-based commercial loans. When comparing this quarter to the same quarter last year, average commercial loans increased \$1.2 billion with broad-based growth across all portfolios. These higher yielding loans continued to drive increases in net interest income, up \$23 million this quarter compared to the first quarter of 2017.

Despite the mortgage market volume decline of approximately 10 percent over the last 12 months, our 2017 mortgage acquisitions provided a boost to fall-out adjusted lock volume which was 29 percent higher in the first quarter of 2018 than the same period a year ago. These acquisitions have strengthened our mortgage production channels and enhanced our national presence. As a result of this diversification, we believe we are better positioned to weather a down market and take advantage of dislocation in the industry.

During the first quarter, we closed on two acquisitions. First, we acquired the branches of Desert Community Bank, which added approximately \$600 million in low cost deposits and \$60 million UPB in loans. We also purchased the mortgage warehouse business from Santander Bank, which brought approximately \$500 million of mortgage warehouse loans. The integration of this business with our existing warehouse lending business, positions us as the fourth largest warehouse lender in the country.

With the addition of the warehouse loans acquired, we ended the quarter with \$16 billion of earning assets, up \$2 billion from March 31, 2017. We continued to focus on growing interest earning assets, along with maintaining strong credit quality and capital, to position our business to deliver shareholder value.

Earnings Performance

	Three Months Ended March 31,		
	2018	2017	Change
	(Dollars in millions, except share data)		
Net interest income	\$ 106	\$ 83	\$ 23
Provision for loan losses	—	3	(3)
Total noninterest income	111	100	11
Total noninterest expense	173	140	33
Provision for income taxes	9	13	(4)
Net income	<u>\$ 35</u>	<u>\$ 27</u>	<u>\$ 8</u>
Income per share			
Basic	\$ 0.61	\$ 0.47	\$ 0.14
Diluted	\$ 0.60	\$ 0.46	\$ 0.14

Net income increased to \$35 million or \$0.60 per diluted share for the three months ended March 31, 2018, compared to \$27 million or \$0.46 per diluted share for the three months ended March 31, 2017. Net interest income increased \$23 million for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017, primarily driven by a \$3.0 billion increase in average interest-earning assets, led by strong commercial loan growth. Continued efforts to grow the Community Bank resulted in 44 percent higher average commercial loan balances with increases spread across all portfolios. An increase of \$1.7 billion in fallout-adjusted rate locks, partially offset by a decrease in gain on sale margin, resulted in a \$12 million increase in gain on loan sales for the first quarter of 2018, compared to the same period a year ago. Our 2017 mortgage acquisitions drove increases in origination volume as well as contributed to an increase in noninterest expense primarily resulting from higher volume driven costs and an increase in compensation and benefits.

Additional details of each key driver have been further explained in Management's discussion below.

Net Interest Income

The following tables present, on a consolidated basis, interest income from average assets and liabilities, expressed in dollars and yields:

	Three Months Ended March 31,					
	2018			2017		
	Average Balance	Interest	Annualized Yield/Rate	Average Balance	Interest	Annualized Yield/Rate

Stockholders' equity	1,414			1,346		
Total liabilities and stockholders' equity	\$ 17,090			\$ 14,043		
Net interest income		\$ 106			\$ 83	
Interest rate spread (3)			2.54%			2.49%
Net interest margin (4)			2.76%			2.67%
Ratio of average interest-earning assets to interest-bearing liabilities			118.3%			119.6%

(1) Includes nonaccrual loans, for further information relating to nonaccrual loans, see Note 4 - Loans Held-for-Investment.

(2) Includes noninterest-bearing custodial deposits that arise due to the servicing of loans for others.

- (3) Interest rate spread is the difference between rates of interest earned on interest-earning assets and rates of interest paid on interest-bearing liabilities.
- (4) Net interest margin is net interest income divided by average interest-earning assets.

Rate/Volume Analysis

The following tables present the dollar amount of changes in interest income and interest expense for the components of interest-earning assets and interest-bearing liabilities. The table distinguishes between the changes related to average outstanding balances (changes in volume while holding the initial rate constant) and the changes related to average interest rates (changes in average rates while holding the initial balance constant). The rate/volume variances are allocated to rate.

	Three Months Ended March 31,

Other long-term debt	1	—	1
Total interest-bearing liabilities	14	5	19
Change in net interest income	\$ —	\$ 23	\$ 23

Comparison to Prior Year Quarter

Net interest income increased \$23 million, or 28 percent, for the three months ended March 31, 2018, compared to the same period in 2017. This increase was primarily driven by growth in average interest-earning assets of 24 percent, led by continued growth of our higher yielding commercial LHFH portfolio and higher average LHFS balances.

Our net interest margin for the three months ended March 31, 2018 was 2.76 percent, as compared to 2.67 percent for the three months ended March 31, 2017. The increase in net interest margin was driven by the growth in our commercial loan portfolio. This increase was partially offset by higher average rates on deposits. Our deposit costs remained well managed despite the rising rate environment and slight extension of duration driven by holding a higher percentage of certificates of deposits.

Average interest-earning assets increased \$3.0 billion for the three months ended March 31, 2018, compared to the three months ended March 31, 2017, primarily due to an increase in LHFH and LHFS average balance. The LHFH portfolio increase was primarily driven by CRE and C&I portfolios increasing \$1.1 billion, or 52 percent as we continued to build a diversified, higher yielding commercial loan portfolio. The LHFS portfolio increased \$945 million primarily due to higher mortgage originations.

Average interest-bearing liabilities increased \$2.7 billion for the three months ended March 31, 2018, compared to the three months ended March 31, 2017, primarily due to an increase in FHLB advances used to fund balance sheet growth. Average interest-bearing deposits increased \$354 million led by higher wholesale, government and retail certificates of deposit being partially offset by a decline in retail savings deposits.

Provision for Loan Losses

Comparison to Prior Year Quarter

The provision for loan losses decreased to zero during the three months ended March 31, 2018, compared to a provision of \$3 million during the three months ended March 31, 2017. The decrease in the provision reflects continued strong credit quality with lower levels of charge-offs coupled with growth in asset classes with lower credit risk.

For further information on the provision for loan losses see MD&A - Credit Quality.

Noninterest Income

The following tables provide information on our noninterest income along with additional details related to our net gain on loan sales and other mortgage metrics:

	Three Months Ended March 31,		Change
	2018	2017	
	(Dollars in millions)		
Net gain on loan sales	\$ 60	\$ 48	\$ 12
Loan fees and charges	20	15	5
Deposit fees and charges	5	4	1
Loan administration income	5	5	—
Net return on mortgage servicing rights	4	14	(10)
Representation and warranty benefit	2	4	(2)
Other noninterest income	15	10	5
Total noninterest income	<u>\$ 111</u>	<u>\$ 100</u>	<u>\$ 11</u>

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Mortgage rate lock commitments (fallout-adjusted) (1)	\$ 7,722	\$ 5,996
Net margin on mortgage rate lock commitments (fallout-adjusted) (1)(2)	0.77%	0.80%
Gain on loan sales + net return on the MSR	\$ 64	\$ 62
Capitalized value of mortgage servicing rights	1.27%	1.10%
Mortgage loans sold and securitized	7,247	4,484
Net margin on loans sold and securitized	0.82%	1.06%

(1) Fallout adjusted refers to mortgage rate lock commitments which are adjusted by a percentage of mortgage loans in the pipeline that are not expected to close based on our historical experience and the level of interest rates.

(2) Gain on loan sale volume is based on net gain on loan sales to fallout-adjusted mortgage rate lock commitments.

Comparison to Prior Year Quarter

Total noninterest income increased \$11 million during the three months ended March 31, 2018, compared to the same period in 2017.

Net gain on loan sales increased \$12 million during the three months ended March 31, 2018, compared to the three months ended March 31, 2017. The increase is due to a 29 percent increase in fallout-adjusted rate locks primarily driven by our 2017 mortgage acquisitions, partially offset by a 3 basis point decrease in net gain on loan sale margin as a result of increased pricing competition driven by a decline in mortgage market volume.

Loan fees and charges increased \$5 million during the three months ended March 31, 2018, compared to the three months ended March 31, 2017, primarily due to a corresponding 30 percent increase in loan originations.

Net return on MSRs, including the impact of hedges, decreased \$10 million during the three months ended March 31, 2018, compared to the three months ended March 31, 2017. The decrease was primarily the result of a decrease in servicing fee income driven by lower MSR balances and higher transaction costs resulting from MSR sales that occurred in 2018.

Other noninterest income increased \$5 million during the three months ended March 31, 2018, compared to the three months ended March 31, 2017. The increase was primarily due to an increase in FHLB stock dividend income resulting from higher FHLB stock holdings and a supplemental dividend paid in the first quarter of 2018. The remaining increase was driven by higher income earned on our bank owned life insurance balances.

Noninterest Expense

The following table sets forth the components of our noninterest expense:

	Three Months Ended March 31,		Change
	2018	2017	
	(Dollars in millions)		
Compensation and benefits	\$ 80	\$ 72	\$ 8
Commissions	18	10	8
Occupancy and equipment	30	22	8
Federal insurance premiums	6	3	3
Loan processing expense	14	12	2
Legal and professional expense	6	7	(1)
Other noninterest expense	19	14	5
Total noninterest expense	<u>\$ 173</u>	<u>\$ 140</u>	<u>\$ 33</u>
Efficiency ratio	79.7%	76.8%	2.9%
Number of FTE	3,659	2,948	711

Comparison to Prior Year Quarter

Noninterest expense increased \$33 million to \$173 million during the three months ended March 31, 2018, compared to \$140 million during the three months ended March 31, 2017.

Compensation and benefits expense increased \$8 million during the three months ended March 31, 2018, compared to the same period in 2017, primarily due to higher headcount, driven by acquisitions. Open employees accounted for 449 of the 711 increase in FTEs.

Commissions increased \$8 million during the three months ended March 31, 2018, compared to the same period in 2017, primarily due to higher loan origination volume.

Occupancy and equipment expense increased \$8 million during the three months ended March 31, 2018 compared to the same period in 2017, primarily due to a higher average depreciable asset base and an increase in vendor services supporting the growth in our business.

Other noninterest expense increased \$5 million during the three months ended March 31, 2018, compared to the same period in 2017, primarily due to an increase in the FDIC assessment driven by higher commercial loan balances and an increase in advertising expenses to support strategic initiatives to raise brand awareness.

Provision (benefit) for Income Taxes

Comparison to Prior Year Quarter

Our provision for income taxes for the three months ended March 31, 2018 was \$9 million compared to a provision of \$13 million during the three months ended March 31, 2017. This decrease is primarily due to the reduction in the statutory corporate tax rate from 35 percent to 21 percent, as a result of the Tax Cuts and Jobs Act. Our effective tax provision rate for the three months ended March 31, 2018 was 20.1 percent compared to 33.1 percent for the three months ended March 31, 2017. Our effective tax provision rate for the three months ended March 31, 2018 differs from the combined federal and state statutory tax rate primarily due to non-taxable bank owned life insurance and other tax-exempt earnings, partially offset by nondeductible expenses.

Operating Segments

For detail on each segment's objectives, strategies, and priorities, please read this section in conjunction with Note 18 - Segment Information.

Community Banking

Our Community Banking segment services consumer, governmental and commercial customers in our banking footprint. We also serve home builders, correspondents, and commercial customers on a national basis.

Our commercial customers are from a diversified range of industries including financial, insurance, service, manufacturing, and distribution. We offer financial products to these customers for use in their normal business operations and financing of working capital needs, equipment purchases and other capital investments. Additionally, our commercial real estate business supports income producing real estate and residential properties. These loans are made to finance properties such as owner-occupied, retail, office, multi-family apartment buildings, industrial buildings, and residential developments.

Our Community Banking segment has seen continued growth and our transformation into a commercial bank continues to be a key component in our overall business model. Our commercial loan portfolio has grown to \$4.6 billion as of March 31, 2018, representing a 49 percent increase from March 31, 2017.

On March 12, 2018, we closed the purchase of the mortgage loan warehouse business from Santander Bank, with approximately \$500 million outstanding warehouse loans and \$1.7 billion in commitments. This acquisition strengthens our mortgage loan warehouse business and brings on a seasoned sales and operations team. With the addition of this acquisition to our existing warehouse lending business, we are the fourth largest warehouse lender in the country.

On March 19, 2018, we completed the acquisition of eight Desert Community Bank branches in San Bernardino County, California, with approximately \$600 million in deposits and \$60 million in loans. This acquisition provides us with low cost, stable deposits to fund balance sheet growth.

Mortgage Originations

We are a leading national originator of residential first mortgages. Our Mortgage Origination segment originates, acquires and sells one-to-four family residential mortgage loans. We utilize multiple channels to originate or acquire mortgage loans in all 50 states.

We continue to leverage technology to streamline the mortgage origination process, thereby bringing service and convenience to borrowers and correspondents. We also continue to make available to our customers various web-based tools that facilitate the mortgage loan process through each of our production channels.

Mortgage Servicing

The Mortgage Servicing segment services and subservices mortgage loans for others through a scalable servicing platform on a fee for service basis and may also collect ancillary fees and earn income through the use of noninterest bearing escrows. The loans we service generate escrow deposits which provide a stable low cost funding source. Revenue for those serviced and subserviced loans is earned on a contractual fee basis, with the fees varying based on our responsibilities and the status of the underlying loans. The Mortgage Servicing segment also services residential mortgages for our LHFI portfolio in the Community Banking segment and our MSR portfolio in the Mortgage Originations segment for which it earns segment revenue via an intercompany service fee allocation.

The following table presents residential loans serviced and the number of accounts associated with those loans.

	March 31, 2018		December 31, 2017	
	Unpaid Principal Balance (1)	Number of accounts	Unpaid Principal Balance (1)	Number of accounts
(Dollars in millions)				
Residential loan servicing				
Serviced for own loan portfolio (2)	\$ 7,629	32,185	\$ 7,013	29,493
Serviced for others	18,767	77,426	25,073	103,137
Subserviced for others (3)	77,748	360,396	65,864	309,814
Total residential loans serviced	\$ 104,144	470,007	\$ 97,950	442,444

(1) UPB, net of write downs, does not include premiums or discounts.
(2) Includes LHFI (residential first mortgage and home equity), LHFS (residential first mortgage), loans with government guarantees (residential first mortgage), and repossessed assets.
(3) Includes temporary short-term subservicing performed as a result of sales of servicing-released MSRs. Includes repossessed assets.

Other

The Other segment includes the treasury functions, which include, the impact of interest rate risk management, balance sheet funding activities and the administration of the investment securities portfolios, as well as miscellaneous other expenses of a corporate nature. In addition, the Other segment includes revenue and expenses not directly assigned or allocated to the Community Banking, Mortgage Originations or Mortgage Servicing segments.

OPERATING SEGMENT PERFORMANCE

For detail on each segment's objectives, strategies, and priorities, please read this section in conjunction with Note 18 - Segment Information.

The following tables present financial information by business segment for the periods indicated:

	Three Months Ended March 31, 2018				
	Community Banking	Mortgage Originations	Mortgage Servicing	Other (1)	Total

(1) Income and expenses relating to operating leases and the CCD income for subservicing clients, have been reclassified to net interest income.

Community Banking

Comparison to Prior Year Quarter

The Community Banking segment reported net income of \$17 million for the three months ended March 31, 2018, compared to \$6 million for the three months ended March 31, 2017. The \$11 million increase in net income was primarily due to a \$19 million increase in net interest income driven by average commercial loan growth of \$1.2 billion from March 31, 2017 to March 31, 2018. The increase in net interest income was partially offset by a \$7 million increase in noninterest expense primarily driven by higher compensation and benefits expense to support our balance sheet growth initiatives and increased FDIC premiums due primarily to higher commercial balances.

Mortgage Originations

Comparison to Prior Year Quarter

The Mortgage Originations segment reported net income of \$19 million for the three months ended March 31, 2018, compared to \$26 million for the three months ended March 31, 2017. The decrease was primarily due to a \$10 million decrease in net return on MSRs driven by a 22 percent decrease in our average MSR asset as a result of MSR sales. In an effort to grow our subservicing business, we retained the majority of the subservicing on these MSR sales.

In addition, our 2017 mortgage acquisitions drove increased mortgage volume resulting in \$1.7 billion higher fallout-adjusted locks during the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. Consequently, net gain on loan sales and loan fees and charges increased \$12 million and \$3 million, respectively, offset by an increase in variable expenses as commissions rose by \$7 million. Additionally, these acquisitions led to higher headcount, resulting in a \$9 million increase in compensation and benefits.

Mortgage Servicing

Comparison to Prior Year Quarter

The Mortgage Servicing segment reported a net loss of \$4 million for the three months ended March 31, 2018, compared to a net loss of \$5 million for the three months ended March 31, 2017, primarily due to a \$3 million increase in loan administration income. This increase was led by an increase in loans subserviced for others which grew to over 360,000 accounts at March 31, 2018, driven by MSR sales for which we retained the majority of the subservicing. Portfolio mix and higher interest rates paid to subservicing clients for custodial balances drove a partially offsetting decrease in net interest income.

Other

Comparison to Prior Year Quarter

The Other segment reported net income of \$3 million for the three months ended March 31, 2018, compared to net income of less than \$1 million for the three months ended March 31, 2017. The \$3 million increase was primarily due to a FHLB stock supplemental dividend received in the first quarter of 2018.

RISK MANAGEMENT

Like all financial services companies, we engage in business activities and assume the related risks. The risks we are subject to in the normal course of business include, but are not limited to, credit, regulatory compliance, legal, reputation, liquidity, market, operational, and strategic. We have made significant investments in our risk management activities which are focused on ensuring we properly identify, measure and manage such risks across the entire enterprise to maintain safety and soundness and maximize profitability. We hold capital to protect from unexpected loss arising from these risks.

A comprehensive discussion of risks affecting us can be found in the Risk Factors section included in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017. Some of the more significant processes used to manage and control credit, market, liquidity and operational risks are described in the following paragraphs.

Credit Risk

Credit risk is the risk of loss to us arising from an obligor's inability or failure to meet contractual payment or performance terms. We provide loans, extend credit, and enter into financial derivative contracts, all of which have related credit risk.

We maintain a strict credit limit, in compliance with regulatory requirements, in order to maintain a diversified loan portfolio and manage credit exposure to any one borrower or obligor. Under the Home Owners Loan Act ("HOLA"), savings associations are generally subject to national bank limits on loans to one borrower. Generally, per HOLA, the Bank may not make a loan or extend credit to a single or related group of borrowers in excess of 15 percent of Tier 1 and Tier 2 capital plus any portion of the allowance for loan losses not included in the Tier 2 capital. This limit was \$251 million as of March 31, 2018.

We maintain a more conservative maximum internal Bank limit than required by HOLA, of \$100 million (commitment level) to any one borrower/obligor relationship, with the exception of warehouse borrower/obligor relationships which have an internal Bank limit of \$125 million. We have a tracking and reporting process to monitor lending concentration levels and all credit exposures to a single borrower that exceed \$50 million must be approved by the Board of Directors. As part of the Santander warehouse acquisition, the Board of Directors approved a short term exception to the limit on loans to an individual borrower/obligor for three warehouse borrowers while Flagstar completes a syndication process to reduce exposure down to the \$125 million limit.

The majority of our credit risk is associated with lending activities, as the acceptance and management of credit risk is central to profitable lending. We manage our credit risk by establishing sound credit policies for underwriting and adhering to well controlled processes. We utilize various credit risk management and monitoring activities to mitigate risks associated with loans that we hold, acquire, and originate.

Loan Originations

The following table presents loan originations by portfolio:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Consumer loans		
Residential first mortgage	\$ 7,886	\$ 5,903
Home equity (1)	65	56
Total consumer loans	7,951	5,959
Commercial loans (2)	169	271
Total loan originations	\$ 8,120	\$ 6,230

(1) Includes second mortgage loans, HELOC loans, and other consumer loans.

(2) Includes newly committed CRE and C&I loans that were net funded within the period.

Loans held-for-investment

The following table summarizes loans held-for-investment by category:

	March 31, 2018	December 31, 2017	Change
	(Dollars in millions)		
Consumer loans			
Residential first mortgage	\$ 2,818	\$ 2,754	\$ 64
Home equity	671	664	7
Other	25	25	—
Total consumer loans	3,514	3,443	71
Commercial loans			
Commercial real estate (1)	1,985	1,932	\$ 53
Commercial and industrial	1,228	1,196	32
Warehouse lending	1,407	1,142	265
Total commercial loans	4,620	4,270	350
Total loans held-for-investment	\$ 8,134	\$ 7,713	\$ 421

(1) Includes NBV of \$325 million and \$307 million of owner occupied commercial real estate loans at March 31, 2018 and December 31, 2017, respectively.

Loans held-for-investment increased \$421 million from December 31, 2017 to March 31, 2018. This increase was due to our continued effort to grow both the consumer and commercial loan portfolios, combined with our acquisitions of Santander Bank's warehouse loans and Desert Community Bank loans.

We continue to strengthen our Community Banking segment by improving margins through the additions of higher yielding loans. The commercial loan portfolio grew \$350 million, or 8 percent, from December 31, 2017 to March 31, 2018, led by a \$265 million increase in warehouse loans.

For further information, see Note 4 - Loans Held-for-Investment.

Residential first mortgage loans. We originate or purchase various types of conforming and non-conforming fixed and adjustable rate loans underwritten using Fannie Mae and Freddie Mac guidelines for the purpose of purchasing or refinancing owner occupied and second home properties. The LTV requirements vary depending on occupancy, property type, loan amount, and FICO scores. Loans with LTVs exceeding 80 percent are required to obtain mortgage insurance. We hold for investment, higher yielding loans and loans that will diversify or enhance the interest rate characteristics of our balance sheet.

The following table presents our total residential first mortgage LHFIs by major category:

	March 31, 2018	December 31, 2017
	(Dollars in millions)	
Estimated LTVs (1)		
Less than 80% and refreshed FICO scores (2):		
Equal to or greater than 660	\$ 2,452	\$ 2,441
Less than 660	82	73
80% and greater and refreshed FICO scores (2):		
Equal to or greater than 660	212	168
Less than 660	23	12
U.S. government guaranteed	49	60
Total	\$ 2,818	\$ 2,754
Geographic region		
California	\$ 1,175	\$ 1,127
Michigan	279	275
Florida	203	201
Texas	191	182
Washington	173	169
Illinois	104	101
Arizona	76	76
Colorado	65	69
Maryland	63	65
New York	61	62
Others	428	427
Total	\$ 2,818	\$ 2,754

(1) LTVs reflect UPB, at the date reported, as a percentage of property values as appraised at loan origination.

(2) FICO scores are updated at least on a quarterly basis or more frequently if available.

The following table presents our total residential first mortgage LHFIs by year of origination:

	2018	2017	2016	2015	2014 and Prior	Total
	(Dollars in millions)					
Residential first mortgage loans (UPB)	\$ 174	\$ 846	\$ 632	\$ 718	\$ 448	\$ 2,818
Percent of total	6.2%	30.0%	22.4%	25.5%	15.9%	100.0%

Home equity. Our home equity portfolio includes first and second lien positions for HELOANS and HELOCs. These loans require full documentation and are underwritten and priced in an effort to ensure credit quality and loan profitability. Our debt-to-income ratio on HELOANS is capped at 43 percent and for HELOCs is capped at 45 percent. We currently limit the maximum CLTV to 89.99 percent and FICO scores to a minimum of 660. Current second mortgage loans/HELOANS are fixed rate loans and are available with terms up to 15 years. HELOC loans are variable-rate loans that contain a 10-year draw period followed by a 20-year amortizing period.

Commercial real estate loans. The commercial real estate portfolio is largely based in Michigan and has limited exposure to big box retail centers and malls. The majority of our retail exposure is to high-quality, single tenant locations, including many drug stores, all of which are underwritten on strong credit metrics. Generally, the maximum LTV is 80 percent, or 85 percent for owner-occupied real estate, and debt service coverage of 1.20 to 1.35 times. At March 31, 2018, our average LTV and average debt service coverage for our CRE portfolio was 53 percent and 2.00 times, respectively. This portfolio also includes owner occupied real estate loans and secured home builder loans.

We have built a national home builder finance program which has helped grow our balance sheet, increase commercial deposits and generate incremental revenue through our retail purchase mortgage channel. Through this program, we now finance and have active relationships with homebuilders nationwide. At March 31, 2018, loans committed to home builders totaled \$1.1 billion, of which \$614 million UPB was drawn or used. Of that, \$110 million UPB is unsecured which is included

in our C&I portfolio and \$504 million UPB is collateralized and included in either the single family residence or land-residential categories of our CRE portfolio.

The following table presents our total CRE LHFI by collateral location and collateral type:

	Michigan	Texas	Colorado	Florida	California	Other	Total	% by collateral type
(Dollars in millions)								
March 31, 2018								
Single family residence (1)	\$ 17	\$ 80	\$ 109	\$ 85	\$ 31	\$ 59	\$ 381	19.2%

Total	\$ 914	\$ 172	\$ 162	\$ 144	\$ 128	\$ 465	\$ 1,985	100.0%
Percent by state	46.0%	8.7%	8.2%	7.3%	6.4%	23.4%	100.0%	

(1) Includes home builder loans secured by SFR 1-4 properties whether under construction or completed.

(2) Includes multipurpose retail space, neighborhood centers, strip centers and single-use retail space.

(3) Includes home builder loans secured by land. Land residential includes development and unimproved vacant land.

(4) Comprised of one shopping mall

(5) All other primarily includes: marina, movie theater, data centers etc.

Commercial and industrial loans. Commercial and industrial LHFI facilities typically include lines of credit and term loans and leases to businesses for use in normal business operations to finance working capital, equipment and capital purchases, acquisitions and expansion projects. We lend to customers with a history of profitability and a long-term business model. Generally, leverage conforms to industry standards and the minimum debt service coverage is 1.20 times. Most of our C&I loans earn interest at a variable rate.

The following table presents our total C&I LHFI by borrower's geographic location and industry type:

	Michigan	Texas	California	Virginia	Louisiana	Other	Total	% by industry
(Dollars in millions)								
March 31, 2018

Percent by state	29.8%	8.1%	6.8%	5.9%	5.1%	44.4%	100.0%	

Warehouse lending. We offer warehouse lines of credit to other mortgage lenders which allow the lender to fund the closing of residential mortgage loans. Each extension, advance, or draw-down on the line is fully collateralized by residential mortgage loans and is paid off when the lender sells the loan to an outside investor or, in some instances, to the Bank. For the three months ended March 31, 2018, the warehouse advance amount of loans sold to the Bank totaled \$2.3 billion, or 32 percent of total loans, as compared to \$2.3 billion, or 39 percent of total loans for the three months ended March 31, 2017.

Underlying mortgage loans are predominantly originated using the Agencies' underwriting standards. The guideline for debt to tangible net worth is 15 to 1. We have a national platform with relationship managers across the country. The aggregate committed amount of adjustable-rate warehouse lines of credit granted to other mortgage lenders at March 31, 2018 was \$4.3 billion, of which \$1.4 billion was outstanding, compared to \$2.8 billion at December 31, 2017, of which \$1.1 billion was outstanding. This increase is primarily due to our acquisition of the warehouse loan portfolio from Santander Bank.

Credit Quality

Trends in certain credit quality characteristics such as nonperforming loans and past due statistics remain very strong and continue to show improvement. This is predominantly a result of our focus on effectively managing credit risk and our sales of legacy portfolios that included greater levels of nonperforming and TDR loans which have been replaced by new loans with strong credit characteristics. The credit quality of our loan portfolios is demonstrated by low delinquency levels, minimal charge-offs and low levels of nonperforming loans.

For all loan categories within the consumer and commercial loan portfolio, loans are placed on nonaccrual status when any portion of principal or interest is 90 days past due (or nonperforming), or earlier when we become aware of information indicating that collection of principal and interest is in doubt. While it is the goal of management to collect on loans, we attempt to work out a satisfactory repayment schedule or modification with past due borrowers and will undertake foreclosure proceedings if the delinquency is not satisfactorily resolved. Our practices regarding past due loans are designed to both assist borrowers in meeting their contractual obligations and minimize losses incurred by the Bank. When a loan is placed on nonaccrual status, the accrued interest income is reversed. Loans return to accrual status when principal and interest become current and are anticipated to be fully collectible.

Nonperforming assets

The following table sets forth our nonperforming assets:

	<u>March 31, 2018</u>	<u>December 31, 2017</u>
	(Dollars in millions)

Nonperforming assets to total assets (2)	0.19%	0.22%
Nonperforming LHFI and TDRs to LHFI	0.35%	0.38%
Nonperforming assets to LHFI and repossessed assets (2)	0.42%	0.48%

(1) Includes less than 90 day past due performing loans placed on nonaccrual. Interest is not being accrued on these loans.

(2) Ratio excludes LHFS.

[Table of Contents](#)

At March 31, 2018, we had \$45 million of nonperforming assets compared to \$46 million of nonperforming assets at December 31, 2017. The consistent low levels of nonperforming loans reflect our focus on growing our loan portfolios with strong credit quality loans.

The following table sets forth activity related to our nonperforming LHFI and TDRs:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Beginning balance	\$ 29	\$ 40
Additions	4	8
Reductions		
Principal payments and loan sales	(2)	(20)
Charge-offs	—	—
Returned to performing status	(1)	—
Transfers to REO	(1)	—
Total nonperforming LHFI and TDRs (1)	<u>\$ 29</u>	<u>\$ 28</u>

(1) Includes less than 90 day past due performing loans which are deemed nonaccrual. Interest is not being accrued on these loans.

During the three months ended March 31, 2018, we did not sell any nonperforming loans. In an effort to improve the credit quality of our portfolio, during the three months ended March 31, 2017, we sold \$34 million UPB of nonperforming consumer loans, which included \$2 million of TDRs.

Delinquencies

The following table sets forth our 30-89 days past due performing LHFI:

	March 31, 2018	December 31, 2017
	(Dollars in millions)	
Performing loans past due 30-89:		
Consumer loans		
Residential first mortgage	\$ 3	\$ 4
Home equity	2	1
Total performing loans past due 30-89 days	<u>\$ 5</u>	<u>\$ 5</u>

As a result of our continued focus on growing our loan portfolio with high quality loans, early stage delinquencies remained low as loans 30 to 89 days past were \$5 million at both March 31, 2018 and December 31, 2017. There were no past due commercial loans at March 31, 2018 or December 31, 2017.

For further information, see Note 4 - Loans Held-for-Investment.

Troubled debt restructurings (held-for-investment)

Troubled debt restructurings ("TDRs") are modified loans in which a borrower demonstrates financial difficulties and for which a concession has been granted as a result. Nonperforming TDRs are included in nonaccrual loans and remain in nonperforming status until a borrower has made at least six consecutive months of payments under the modified terms. Performing TDRs are excluded from nonaccrual loans, because based on our evaluation, it is reasonably assured that all contractual principal and interest due under the restructured terms will be collected.

The following table sets forth a summary of TDRs by performing status:

	March 31, 2018	December 31, 2017
(Dollars in millions)		
Performing TDRs		
Residential first mortgage	\$ 20	\$ 19
Home equity	24	24
Commercial and industrial	5	—
Total performing TDRs	49	43
Nonperforming TDRs		
Nonperforming TDRs	5	5
Nonperforming TDRs at inception but performing for less than six months	10	11
Total nonperforming TDRs	15	16
Total TDRs (1)	\$ 64	\$ 59

(1) The ALLL on TDR loans totaled \$13 million at both March 31, 2018 and December 31, 2017.

At March 31, 2018 our total TDR loans increased \$5 million as compared to December 31, 2017 primarily due to the addition of a C&I loan. Of our total TDR loans, 76.5 percent were in performing status at March 31, 2018, as compared to 73.7 percent at December 31, 2017.

For further information, see Note 4 - Loans Held-for-Investment.

Allowance for Loan Losses

The ALLL represents management's estimate of probable losses that are inherent in our LHFI portfolio but which have not yet been realized. For further information, see Note 4 - Loans Held-for-Investment.

The ALLL was \$139 million and \$140 million at March 31, 2018 and December 31, 2017, respectively. The decrease was primarily driven by continued strong credit quality, including lower levels of net charge-offs and delinquencies offset by growth in the LHFI portfolio of \$421 million UPB.

The ALLL as a percentage of LHFI decreased to 1.7 percent as of March 31, 2018 from 1.8 percent as of December 31, 2017, primarily attributable to growth of \$421 million UPB consisting of assets in both the consumer and commercial loan portfolios. At March 31, 2018, we had a 2.0 percent allowance coverage of our consumer loan portfolio and a 1.5 percent allowance coverage of our commercial loan portfolio, reflecting continued low levels of delinquencies and net charge-offs in the LHFI portfolio.

The following table sets forth certain information regarding the allocation of our ALLL to each loan category:

	March 31, 2018			Allowance as a Percent of Loan Portfolio
	Investment Loan Portfolio	Percent of Portfolio	Allowance Amount	
(Dollars in millions)				
Consumer loans				
Residential first mortgage	\$ 2,810	34.6%	\$ 47	1.7%
Home Equity	667	8.3%	21	3.1%
Other	25	0.3%	1	4.0%
Total consumer loans	3,502	43.2%	69	2.0%
Commercial loans				
Commercial real estate	1,985	24.4%	44	2.2%
Commercial and industrial	1,228	15.1%	20	1.6%
Warehouse lending	1,407	17.3%	6	0.4%
Total commercial loans	4,620	56.8%	70	1.5%
Total consumer and commercial loans (1)	\$ 8,122	100.0%	\$ 139	1.7%

(1) Excludes loans carried under the fair value option.

The following table presents changes in ALLL:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Beginning balance	\$ 140	\$ 142
Provision for loan losses	—	3
Charge-offs		
Consumer loans		
Residential first mortgage	(1)	(4)
Home equity	(1)	—
Other consumer	—	(1)
Total consumer loans	(2)	(5)
Total charge offs	(2)	(5)
Recoveries		
Consumer loans		
Home equity	1	—
Other consumer	—	1
Total consumer loans	1	1
Total recoveries	1	1
Charge-offs, net of recoveries	(1)	(4)
Ending balance	\$ 139	\$ 141
Net charge-off to LHFH ratio (1)	0.06%	0.27%

(1) Excludes loans carried at fair value.

Net charge-offs for the three months ended March 31, 2018 decreased to \$1 million, compared to \$4 million for the three months ended March 31, 2017. Over the same periods, net charge-offs as a percentage of average LHFH decreased to 0.06 percent from 0.27 percent. The decrease in net charge-offs and net charge-offs as a percentage of LHFH reflects the credit quality of our loan portfolio, combined with sales of nonperforming loans during 2017.

Market Risk

Market risk is the risk of reduced earnings and/or declines in the net market value of the balance sheet due to changes in market rates. Our primary market risk is interest rate risk which impacts our net interest income, fee income related to interest sensitive activities such as mortgage origination and servicing income, and loan and deposit demand.

We are subject to interest rate risk due to:

- The maturity or repricing of assets and liabilities at different times or for different amounts
- Differences in short-term and long-term market interest rate changes
- The remaining maturity of various assets or liabilities may shorten or lengthen as interest rates change

The Asset/Liability Committee ("ALCO"), which is composed of our executive officers and certain members of management, monitors interest rate risk on an on-going basis in accordance with policies approved by our board of directors. The ALCO reviews interest rate positions and considers the impact projected interest rate scenarios have on earnings, capital, liquidity, business strategies, and other factors. However, management has the latitude to change interest rate positions within certain limits if, in management's judgment, the change will enhance profitability.

To assess and manage interest rate risk, sensitivity analysis is used to determine the impact on earnings and the net market value of the balance sheet across various interest rate scenarios, balance sheet trends, and strategies.

Net interest income sensitivity

Management uses a simulation model to analyze the sensitivity of net interest income to changes in interest rates across various interest rate scenarios which demonstrates the level of interest rate risk inherent in the existing balance sheet. The analysis holds the current balance sheet values constant and does not take into account management intervention. In addition, we assume certain correlation rates, often referred to as a "deposit beta," for interest-bearing deposits, wherein the

rates paid to customers change relative to changes in benchmark interest rates. The effect on net interest income over a 12 month time horizon due to hypothetical changes in market interest rates is presented in the table below. In this interest rate shock simulation, as of the periods presented, interest rates have been adjusted by instantaneous parallel changes rather than in a ramp simulation which applies interest rate changes over time. All rates, short-term and long-term, are changed by the same amount (plus or minus 200 basis points) resulting in the shape of the yield curve remaining unchanged. The minus 200 basis point shock scenario is effectively a flattener scenario as rates are floored at zero given the current interest rate levels. For the scenarios simulated, our established internal policy limit on the change in net interest income, is 15 percent. At March 31, 2018 and December 31, 2017, the results of the simulation were within the internal policy limit.

March 31, 2018			
Scenario	Net interest income	\$ Change	% Change
(Dollars in millions)			
200	\$451	\$26	6.0 %
Constant	425	—	— %
(200)	392	(33)	(7.8)%
December 31, 2017			
Scenario	Net interest income	\$ Change	% Change
(Dollars in millions)			
200	\$449	\$16	3.6 %
Constant	433	—	— %
(200)	397	(37)	(8.5)%

In the net interest income simulations, our balance sheet exhibits slight asset sensitivity. When interest rates rise our net interest income increases. Conversely, when interest rates fall our net interest income decreases. At March 31, 2018, the \$8 million decrease in the net interest income in the constant scenario as compared to December 31, 2017 was primarily driven by curve flattening.

As of March 31, 2018, we have also projected the potential impact to net interest income in a hypothetical "bear flattener" interest rate scenario, in which short-term interest rates have been instantaneously increased by 100 basis points while holding the longer term interest rates constant. Over a 12-month and 24-month period, based on our existing balance sheet, the simulation resulted in a loss of \$38 million and \$77 million, respectively.

The net interest income sensitivity analysis has certain limitations and makes various assumptions. Key elements of this interest rate risk exposure assessment include maintaining a static balance sheet and parallel rate shocks. The direction of future interest rates not moving in a parallel manner across the yield curve, how the balance sheet will respond and shift based on a change in future interest rates and how the Company will respond are not included in this analysis and limit the predictive value of these scenarios.

Economic value of equity

Management also utilizes EVE, a point in time analysis of the economic value of our current balance sheet position, which measures interest rate risk over a longer term. The EVE calculation represents a hypothetical valuation of equity, and is defined as the market value of assets, less the market value of liabilities, adjusted for the market value of off-balance sheet instruments. The assessment of both short-term earnings (Net Interest Income Sensitivity) and long-term valuation (EVE) approaches provides a more comprehensive analysis of interest rate risk exposure than Net Interest Income Sensitivity alone.

There are assumptions and inherent limitations in any methodology used to estimate the exposure to changes in market interest rates and as such, sensitivity calculations used in this analysis are hypothetical and should not be considered to be predictive of future results. This analysis evaluates risks to the current balance sheet only and does not incorporate future growth assumptions. Additionally, the analysis assumes interest rate changes are instantaneous and the new rate environment is constant but does not include actions management may undertake to manage risk in response to interest rate changes. Each rate scenario reflects unique prepayment and repricing assumptions. Management derives these assumptions by considering published market prepayment expectations, repricing characteristics, our historical experience, and our asset and liability management strategy. This analysis assumes that changes in interest rates may not affect or could partially affect certain instruments based on their characteristics.

The following table is a summary of the changes in our EVE that are projected to result from hypothetical changes in market interest rates as well as our internal policy limits for changes in our EVE based on the different scenarios. The interest rates, as of the dates presented, are adjusted by instantaneous parallel rate increases and decreases as indicated in the scenarios shown in the table below.

March 31, 2018					December 31, 2017					Policy Limits
Scenario	EVE	EVE%	\$ Change	% Change	Scenario	EVE	EVE%	\$ Change	% Change	
(Dollars in millions)										
300	\$ 1,735	10.3%	\$ (100)	(5.5)%	300	\$ 1,941	11.6%	\$ (172)	(8.1)%	22.5%
200	1,789	10.7%	(46)	(2.5)%	200	2,020	12.0%	(93)	(4.4)%	15.0%
100	1,831	10.9%	(4)	(0.3)%	100	2,089	12.4%	(24)	(1.2)%	7.5%
Current	1,835	10.9%	—	—%	Current	2,113	12.6%	—	—%	—%
(100)	1,783	10.6%	(52)	(2.9)%	(100)	2,082	12.4%	(31)	(1.5)%	7.5%

Our balance sheet exhibits liability sensitivity in a rising interest rate scenario as the EVE decreases. The decrease in EVE is the result of the amount of liabilities that would be expected to reprice exceeding the amount of assets repriced in the +200 scenario. At March 31, 2018 and December 31, 2017, for each scenario shown, the percentage change in our EVE is within our internal policy limit.

Derivative financial instruments

As a part of our risk management strategy, we use derivative financial instruments to minimize fluctuation in earnings caused by interest rate risk. We use interest rate swaps, swaptions and forward sales commitments to hedge our mortgage origination pipeline, funded mortgage LHFS and MSR. All of our derivatives and mortgage loan production originated for sale are accounted for at fair market value. Changes to mortgage commitments are based on changes in fair value of the underlying loan, which is impacted most significantly by changes in interest rates and changes in the probability that the loan will not fund within the terms of the commitment, referred to as a fallout factor or pull through rate. Market risk on interest rate lock commitments and mortgage LHFS is managed using corresponding forward sale commitments. The adequacy of these hedging strategies, the ability to fully or partially hedge market risk, rely on various assumptions or projections, including a fallout factor, which is based on a statistical analysis of our actual rate lock fallout history. For further information, see Note 8 - Derivative Financial Instruments and Note 17 - Fair Value Measurements.

Mortgage Servicing Rights (MSRs)

Our MSRs are sensitive to interest rate volatility and are highly susceptible to prepayment risk, basis risk, market volatility and changes in the shape of the yield curve. We utilize derivatives and other fair value assets as part of our overall hedging strategy to manage the impact of changes in the fair value of the MSRs, however these risk management strategies do not completely eliminate repricing risk. Our hedging strategies rely on assumptions and projections regarding assets and general market factors, many of which are outside of our control. If one or more of these assumptions or projections proves to be incorrect our hedging strategies may not adequately mitigate the impact of changes in interest rates or prepayment speeds, and as a result may negatively impact earnings. For further information, see Note 7 - Mortgage Servicing Rights, Note 8 - Derivative Financial Instruments and Note 17 - Fair Value Measurements.

Liquidity Risk

Liquidity risk is the risk that we will not have sufficient funds to meet current and future cash flow needs as they become due. The liquidity of a financial institution reflects the ability to meet loan demand, to accommodate possible outflows in deposits and to take advantage of interest rate and market opportunities. The ability of a financial institution to meet current financial obligations is a function of the balance sheet structure, the ability to liquidate assets, and access to various sources of funds.

Parent Company Liquidity

The Company obtains its liquidity primarily from dividends from the Bank. The primary uses of the Company's liquidity are debt service and operating expenses, which includes compensation and benefits, legal and professional expense and general and administrative expenses. At March 31, 2018, the Company held \$220 million of cash at the Bank, or 6.3 years

of expense and debt service coverage when excluding the redemption of \$250 million of senior notes which mature on July 15, 2021.

The OCC regulates all capital distributions made by the Bank, directly or indirectly, to the holding company, including dividend payments. A subsidiary of a savings and loan holding company, such as the Bank, is required to file a notice or application with the OCC at least 30 days prior to each proposed capital distribution. Whether an application is required is based on a number of factors including whether the institution qualifies as an eligible association under the OCC rules and regulations or if the total amount of all capital distributions (including each proposed capital distribution) for the applicable calendar year exceeds net income for that year to date plus the retained net income for the preceding two years. Additional restrictions on dividends apply if the Bank fails the QTL test. At March 31, 2018, as reported to the OCC, we passed the QTL test.

In addition, as a subsidiary of a savings and loan holding company a 30-day notice from the Bank must be provided to the Federal Reserve prior to declaring or paying dividends and under the Supervisory Agreement, the Company agreed to request prior non-objection of the Federal Reserve to pay any dividends or make any other capital distributions. In the first quarter of 2018, we paid dividends of \$34 million from the Bank to the Bancorp.

For further information and restrictions related to the Bank's payment of dividends, see MD&A - Capital.

Bank Liquidity

We primarily originate agency-eligible LHFS and therefore the majority of new residential first mortgage loan originations are readily convertible to cash, either by selling them as part of our monthly agency sales, private party whole loan sales, or by pledging them to the FHLB of Indianapolis and borrowing against them. We use the FHLB of Indianapolis as a significant source for funding our residential mortgage banking business due to the flexibility in terms which allows us to borrow or repay borrowings as daily cash needs require.

We have arrangements with the FRB of Chicago to borrow from its discount window. The discount window is a borrowing facility that we may utilize for short-term liquidity needs arising from special or unusual circumstances. The amount we are allowed to borrow is based on the lendable value of the collateral that we provide. To collateralize the line, we pledge investment securities and loans that are eligible based on FRB of Chicago guidelines. At March 31, 2018 and December 31, 2017, we had no borrowings outstanding against this line of credit.

The amount we can borrow, or the value we receive for the assets pledged to our liquidity providers, varies based on the amount and type of pledged collateral as well as the perceived market value of the assets and the "haircut" of the market value of the assets. That value is sensitive to the pricing and policies of our liquidity providers and can change with little or no notice.

As governed and defined by our internal liquidity policy, we maintain adequate excess liquidity levels appropriate to cover unanticipated liquidity needs. In addition to this liquidity, we also maintain targeted minimum levels of unused collateralized borrowing capacity as another cushion against unexpected liquidity needs. Each business day, we forecast 90 days of daily cash needs. This allows us to determine our projected near term daily cash fluctuations and also to plan and adjust, if necessary, future activities. As a result, in an adverse environment, we would be able to make adjustments to operations as required to meet the liquidity needs of our business, including adjusting deposit rates to increase deposits, planning for additional FHLB borrowings, accelerating sales of LHFS (agencies and/or private), selling LHFI or investment securities, borrowing through the use of repurchase agreements, reducing originations, making changes to warehouse funding facilities, or borrowing from the discount window.

Our liquidity position is continuously monitored and adjustments are made to the balance between sources and uses of funds as deemed appropriate. We balance the liquidity of our loan assets to our available funding sources. Our LHFI portfolio is funded with stable core deposits whereas our warehouse and LHFS may be funded with FHLB borrowings and custodial deposits.

Management is not aware of any events that are reasonably likely to have a material adverse effect on our liquidity.

Liquidity Table

	March 31, 2018	December 31, 2017	Change
	(Dollars in millions)		
Demand deposit accounts	\$ 1,495	\$ 1,219	\$ 276
Savings accounts	3,521	3,553	(32)

Custodial deposits	1,416	1,358	58
Total deposits	\$ 9,986	\$ 8,934	\$ 1,052
Federal Home Loan Bank advances	\$ 5,433	\$ 5,665	\$ (232)
Other long-term debt	494	494	—
Total borrowed funds	\$ 5,927	\$ 6,159	\$ (232)

Deposits

The following table presents a composition of our deposits:

	March 31, 2018		December 31, 2017		Change
	Balance	% of Deposits	Balance	% of Deposits	
	(Dollars in millions)				
Retail deposits					
Branch retail deposits					
Demand deposit accounts	\$ 1,190	11.9%	\$ 931	10.4%	\$ 259
Savings accounts	3,443	34.5%	3,482	39.0%	(39)
Money market demand accounts	159	1.6%	124	1.4%	35
Certificates of deposit/CDARS (1)	1,828	18.3%	1,491	16.7%	337
Total branch retail deposits	6,620	66.3%	6,028	67.5%	592
Commercial retail deposits					
Demand deposit accounts	305	3.1%	288	3.2%	17
Savings accounts	78	0.8%	71	0.8%	7
Money market demand accounts	83	0.8%	69	0.8%	14
Certificates of deposit/CDARS (1)	12	0.1%	2	—%	10
Total commercial retail deposits	478	4.8%	430	4.8%	48
Total retail deposits	\$ 7,098	71.1%	\$ 6,458	72.3%	\$ 640
Government deposits					
Demand deposit accounts	\$ 342	3.4%	\$ 251	2.8%	\$ 91
Savings accounts	499	5.0%	446	5.0%	53
Certificates of deposit/CDARS (1)	404	4.0%	376	4.2%	28
Total government deposits (2)	1,245	12.4%	1,073	12.0%	172
Wholesale deposits	227	2.3%	45	0.5%	182
Custodial deposits (3)	1,416	14.2%	1,358	15.2%	58
Total deposits (4)	\$ 9,986	100.0%	\$ 8,934	100.0%	\$ 1,052

- (1) The aggregate amount of certificates of deposit with a minimum denomination of \$100,000 was approximately \$1.7 billion and \$1.4 billion at March 31, 2018 and December 31, 2017, respectively.
- (2) Government deposits include funds from municipalities and schools.
- (3) These accounts represent a portion of the investor custodial accounts and escrows controlled by us in connection with loans serviced for others and that have been placed on deposit with the Bank.
- (4) The aggregate amount of deposits with a balance over \$250,000 was approximately \$4.6 billion and \$4.2 billion at March 31, 2018 and December 31, 2017, respectively.

Total deposits increased \$1.1 billion, or 11.8 percent at March 31, 2018, compared to December 31, 2017, primarily due to growth in branch retail deposits driven by the acquisition of eight branches from Desert Community Bank. In addition to external growth through the acquisition, our deposit strategy continues to include organic growth with our existing customer base, expansion in our subservicing business and by investing in technology to support online banking.

We utilize local governmental agencies and other public units, as an additional source for deposit funding. We are not required to hold collateral against our government deposits from Michigan government entities as they are covered by the Michigan Business and Growth Fund. We are required to hold collateral on our government deposits in California that are in excess of \$250,000. Government deposit accounts include \$404 million of certificates of deposit with maturities typically less than one year and \$841 million in checking and savings accounts at March 31, 2018.

Custodial deposits arise due to our servicing or sub-servicing of loans for others and represent the portion of the investor custodial accounts on deposit with the Bank. Certain deposits require us to reimburse the owner for the spread on these funds. This cost is a component of net loan administration income. Custodial deposits and short term FHLB advances are used to fund our most liquid assets including LHFS and warehouse loans. As not all asset categories require the same level of liquidity, our loan-to-deposit ratio shows how we manage our liquidity position, how much liquidity we have and the agility of our balance sheet. The Company's HFI loan-to-deposit ratio, which excludes warehouse loans and custodial deposits, was 84 percent at March 31, 2018.

We participate in the CDARS program, through which certain customer CDs are exchanged for CDs of similar amounts from other participating banks. This gives customers the potential to receive FDIC insurance up to \$50 million. At March 31, 2018, we had \$178 million of total CDs enrolled in the CDARS program, a decrease of \$12 million from December 31, 2017.

FHLB Advances

We rely upon advances from the FHLB as a source of funding for the origination or purchase of loans for sale in the secondary market and for providing duration specific short-term and long-term financing. The outstanding balance of FHLB advances fluctuates from time to time depending on our current inventory of mortgage LHFS and the availability of lower cost funding sources. Our portfolio includes short-term fixed rate advances, long-term LIBOR adjustable advances, and long-term fixed rate advances. Interest rates on the LIBOR index advances reset every three months and the advances may be prepaid without penalty, with notification, at scheduled three-month intervals after an initial 12-month lockout period.

The FHLB provides loans, also referred to as advances, on a fully collateralized basis, to savings banks and other member financial institutions. We are currently authorized through a resolution of our board of directors to apply for advances from the FHLB using approved loan types as collateral, which includes residential first mortgage loans, home equity lines of credit, and commercial real estate loans. At March 31, 2018, we had the authority and approval from the FHLB to utilize a line of credit of up to \$10 billion and we may access that line to the extent that collateral is provided. At March 31, 2018, we had \$5.4 billion of advances outstanding and an additional \$1.4 billion of collateralized borrowing capacity available at the FHLB.

Federal Reserve Discount Window

At March 31, 2018, we pledged collateral to the Federal Reserve Discount Window amounting to \$485 million with a lendable value of \$444 million. At December 31, 2017, we pledged collateral to the Federal Reserve Discount Window amounting to \$467 million with a lendable value of \$433 million. At March 31, 2018 and December 31, 2017, we had no borrowings outstanding against this line of credit.

Debt

As part of our overall capital strategy, we previously raised capital through the issuance of junior subordinated notes to our special purpose trusts formed for the offerings, which issued Tier 1 qualifying preferred stock (trust preferred securities). The trust preferred securities are callable by us at any time. Interest is payable on a quarterly basis; however, we may defer interest payments for up to 20 quarters without default or penalty. At March 31, 2018, we had no deferred interest payments.

For further information, see Note 9 - Borrowings.

Operational Risk

Operational risk is the risk of loss due to human error; inadequate or failed internal systems and controls; violations of, or noncompliance with, laws, rules and regulations, prescribed practices, or ethical standards; and external influences such as market conditions, fraudulent activities, disasters, and security risks. We continuously strive to adapt our system of internal controls to ensure compliance with laws, rules, and regulations, and to improve the oversight of our operational risk.

We evaluate internal systems, processes, and controls to mitigate loss from cyber-attacks and, to date, have not experienced any material losses. The goal of this framework is to implement effective operational risk techniques and strategies, minimize operational and fraud losses, and enhance our overall performance.

Loans with government guarantees

Substantially all of our loans with government guarantees continue to be insured or guaranteed by the FHA or the U.S. Department of Veterans Affairs and management believes that the reimbursement process is proceeding appropriately. Nonperforming repurchased loans in this portfolio earn interest at a rate based upon the 10-year U.S. Treasury note rate from the time the underlying loan becomes delinquent, which is not paid by the FHA until claimed. Certain loans within our portfolio may be subject to indemnifications and insurance limits which exposes us to limited credit risk.

In the three months ended March 31, 2018, we experienced net charge-offs of less than \$1 million and have reserved for the remaining risks within other assets and as a component of our ALLL on residential first mortgages. These charge-offs arise due to insurance limits on VA insured loans and FHA property foreclosure and preservation requirements that may result in a loss, all or in part, of the guarantee.

Our loans with government guarantees portfolio totaled \$286 million at March 31, 2018, as compared to \$271 million at December 31, 2017. The increase is primarily due to new purchases out-pacing loans transferred to LHFS and resold to Ginnie Mae.

For further information, see Note 5 - Loans with Government Guarantees.

Representation and warranty reserve

When we sell mortgage loans, we make customary representations and warranties to the purchasers, including sponsored securitization trusts and their insurers (primarily Fannie Mae and Freddie Mac). An estimate of the fair value of the guarantee associated with the mortgage loans is recorded in other liabilities in the Consolidated Statements of Financial Condition, which was \$13 million at March 31, 2018, as compared to \$15 million at December 31, 2017.

Regulatory Risks

Consent Orders

On September 29, 2014, the Bank entered into a Consent Order with the CFPB. The Consent Order relates to alleged violations of federal consumer financial laws arising from the Bank's residential first mortgage loan loss mitigation practices and default servicing operations dating back to 2011. Under the terms of the Consent Order, the Bank paid \$28 million for borrower remediation and \$10 million in civil money penalties. The settlement does not involve any admission of wrongdoing on the part of the Bank or our employees, directors, officers, or agents. For further information and a complete description of all of the terms of the Consent Order, please refer to the copy of the Supervisory Agreement filed with the SEC as an exhibit to our 2016 Form 10-K for the year ended December 31, 2016.

Supervisory Agreement

On January 28, 2010, we became subject to the Supervisory Agreement, which will remain in effect until terminated, modified, or suspended in writing by the Federal Reserve. The failure to comply with the Supervisory Agreement could result in the initiation of further enforcement action by the Federal Reserve, including the imposition of further operating restrictions, and could result in additional enforcement actions against us. We have taken actions which we believe are appropriate to comply with, and intend to maintain compliance with, all of the requirements of the Supervisory Agreement. For further information and a complete description of all of the terms of the Supervisory Agreement, please refer to the copy of the Supervisory Agreement filed with the SEC as an exhibit to our 2016 Form 10-K for the year ended December 31, 2016.

Department of Justice Settlement Agreement

On February 24, 2012, the Bank entered into a Settlement Agreement with the DOJ under which we made an initial payment of \$15 million and agreed to make future payments totaling \$118 million in annual increments of up to \$25 million upon meeting all of the following conditions which are evaluated quarterly and include: (a) the reversal of the DTA valuation allowance, which in 2013; (b) the repayment of the Fixed Rate Cumulative Perpetual Preferred Stock, Series C (the "TARP Preferred"), which occurred in July 2016; and (c) the Bank having a Tier 1 Leverage Capital Ratio of 11 percent or greater as filed in the Call Report with the OCC. At March 31, 2018, the Company had a Tier 1 Leverage Capital Ratio of 8.72 percent.

No payment would be required until six months after the Bank files its Call Report first reporting that its Tier 1 Leverage Capital Ratio was 11 percent or greater. If all other conditions were then satisfied, an initial annual payment of \$25 million would be due at that time. The next annual payment is only made if all conditions continue to be satisfied otherwise payments are delayed until all such conditions are met. Further, making such a payment must not violate any material banking regulatory requirement, and the OCC must not object in writing.

The combination of (a) future dividends from the Bank to Bancorp and (b) continued growth in earning assets at the Bank are expected to continue to limit the growth rate of the Bank's Tier 1 Leverage Capital Ratio, which could have an impact on the timing of expected cash flows under the Settlement Agreement.

Consistent with our business and regulatory requirements, Flagstar shall seek in good faith to fulfill the conditions, and will not undertake any conduct or fail to take any action the purpose of which is to frustrate or delay our ability to fulfill any of the conditions.

Additionally, if the Bank or Bancorp become party to a business combination in which the Bank and Bancorp represent less than 33.3 percent of the resulting company's assets, annual payments would commence twelve months after the date of that business combination.

The Settlement Agreement meets the definition of a financial instrument for which we elected the fair value option. The fair value of the liability is subject to significant uncertainty and is impacted by forecasted estimates of equity, earnings, timing and amount of dividends and growth of the balance sheet and their related impacts on forecasted Tier 1 Leverage Capital Ratio. We consider the assumptions a market participant would make to transfer the liability and evaluate multiple possible outcomes and our estimates of the likelihood of these outcomes, which may change over time. For further information on the fair value of the liability, see Note 17 - Fair Value Measurements.

Capital

Management actively reviews and manages our capital position and strategy. We make adjustments to our balance sheet composition taking into consideration potential business risks, regulatory requirements and the flexibility to support future growth. We prudently manage our capital position and work with our regulators to ensure that our capital levels are appropriate considering our risk profile.

The capital standards we are subject to include requirements contemplated by the Dodd-Frank Act as well as guidelines under Basel III. These risk-based capital adequacy guidelines are intended to measure capital adequacy with regard to a banking organization's balance sheet, including off-balance sheet exposures such as unused portions of loan commitments, letters of credit, and recourse arrangements. Our capital ratios are maintained at levels in excess of those considered to be "well-capitalized" by regulators. Tier 1 leverage was 8.72 percent at March 31, 2018 providing a 372 basis point stress buffer above the minimum level needed to be considered "well-capitalized." Additionally, total risk-based capital to RWA was 14.14 percent at March 31, 2018 providing a 414 basis point stress buffer above the minimum level needed to be considered "well-capitalized". For additional information on our capital requirements, see Note 15 - Regulatory Capital.

Dodd-Frank Act Section 171, commonly known as the Collins Amendment, established minimum Tier 1 leverage and risk-based capital requirements for insured depository institutions, depository institution holding companies, and non-bank financial companies that are supervised under the Federal Reserve. Under the amendment, certain hybrid securities, such as trust preferred securities, may be included in Tier 1 capital for bank holding companies that had total assets below \$15 billion as of December 31, 2009. As we were below \$15 billion in assets as of December 31, 2009, the trust preferred securities classified as long term debt on our balance sheet will be included as Tier 1 capital while they are outstanding, unless we complete an acquisition of a depository institution holding company.

In addition, banks with assets greater than \$10 billion are required to submit a DFAST under the final rules established by their primary regulator. DFAST requires banks to project results over a nine-quarter planning horizon under three scenarios (baseline, adverse, and severely adverse) published by the Federal Reserve and to show that the bank would exceed regulatory minimum capital standards under all three scenarios. Our most recent DFAST results demonstrated a robust capital position that supports our business and also provides a significant opportunity for continued growth.

Additionally, we conduct quarterly capital stress tests and capital adequacy assessments. These quarterly capital stress tests utilize internally defined scenarios that are designed to help management and the Board better understand the integrated sensitivity of various risk exposures through quantifying the potential financial and capital impacts of hypothetical stressful events and scenarios.

Regulatory Capital Simplification

The Bank and Flagstar have been subject to the capital requirements of the Basel III rules since January 1, 2015. On October 27, 2017, the agencies issued a notice of proposed rulemaking (“NPR”) which would simplify certain aspects of the Basel III capital rules. The agencies expect that the capital treatment and transition provisions for items covered by this final rule will change once the simplification proposal is finalized and effective. Specifically, the proposal would increase the limit on MSRs to 25 percent of CET1 and eliminate the aggregate 15 percent CET1 deduction threshold for MSRs and temporary difference DTAs. In response to comments received from bankers and trade associations, the regulators may change these proposed rules prior to issuing them and it is uncertain when the rules will be issued in their final form.

In preparation for the NPR, the Basel III implementation phase-in has been halted for the treatment of MSRs and certain DTAs. The agencies issued a final rule that will maintain the capital rules’ 2017 transition provisions for several regulatory capital deductions and certain other requirements that are subject to multi-year phase-in schedules in the regulatory capital rules. Specifically, the final rule will maintain the capital rules’ 2017 transition provisions at 80 percent for the regulatory capital treatment of the following items: (i) MSRs, (ii) DTAs arising from temporary differences that could not be realized through net operating loss carrybacks, (iii) investments in the capital of unconsolidated financial institutions, and (iv) minority interests. As of March 31, 2018, we had \$239 million in MSRs, \$55 million in DTAs arising from temporary differences and no investments in unconsolidated financial institutions or minority interest. This final rule will maintain the 2017 transition provisions for certain items for non-advanced approach banks. For additional information on our capital requirements, see Note 15 - Regulatory Capital.

Use of Non-GAAP Financial Measures

In addition to results presented in accordance with GAAP, this report includes non-GAAP financial measures such as tangible book value per share. We believe these non-GAAP financial measures provide additional information that is useful to investors in helping to understand the underlying performance and trends of the Company.

Non-GAAP financial measures have inherent limitations, which are not required to be uniformly applied and are not audited. Readers should be aware of these limitations and should be cautious with respect to the use of such measures. To mitigate these limitations, we have practices in place to ensure that these measures are calculated using the appropriate GAAP or regulatory components in their entirety and to ensure that our performance is properly reflected to facilitate consistent period-to-period comparisons. Our method of calculating these non-GAAP measures may differ from methods used by other companies. Although we believe the non-GAAP financial measures disclosed in this report enhance investors’ understanding of our business and performance, these non-GAAP measures should not be considered in isolation, or as a substitute for those financial measures prepared in accordance with GAAP. Where non-GAAP financial measures are used, the most directly comparable GAAP or regulatory financial measure, as well as the reconciliation to the most directly comparable GAAP or regulatory financial measure, can be found in this report.

Tangible book value per share. The Company believes that tangible book value per share provides a meaningful representation of its operating performance on an ongoing basis. Management uses this measure to assess performance of the Company against its peers and evaluate overall performance. The Company believes this non-GAAP financial measure provides useful information for investors, securities analysts and others because it provides a tool to evaluate the Company's performance on an ongoing basis and compared to its peers.

Critical Accounting Estimates

Various elements of our accounting policies, by their nature, are subject to estimation techniques, valuation assumptions and other subjective assessments. Certain accounting policies that, due to the judgment, estimates and assumptions in those policies are critical to an understanding of our Consolidated Financial Statements and the Notes, are described in Item 1. These policies relate to: (a) the determination of our ALLL; and (b) fair value measurements. We believe the judgment, estimates and assumptions used in the preparation of our Consolidated Financial Statements and the Notes are appropriate given the factual circumstances at the time. However, given the sensitivity of our Consolidated Financial Statements and the Notes to these critical accounting policies, the use of other judgments, estimates and assumptions could result in material differences in our results of operations and/or financial condition. For further information on our critical accounting policies, please refer to our Form 10-K for the year ended December 31, 2017, which is available on our website, flagstar.com, under the Investor Relations section, or on the website of the Securities and Exchange Commission, at sec.gov.

FORWARD – LOOKING STATEMENTS

Certain statements in this Form 10-Q, including but not limited to statements included within the Management's Discussion and Analysis of Financial Condition and Results of Operations, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. In addition, Flagstar Bancorp, Inc. may make forward-looking statements in our other documents filed with or furnished to the SEC, and our management may make forward-looking statements orally to analysts, investors, representatives of the media and others.

Generally, forward-looking statements are not based on historical facts but instead represent management's beliefs regarding future events. Such statements may be identified by words such as believe, expect, anticipate, intend, plan, estimate, may increase, may fluctuate, and similar expressions or future or conditional verbs such as will, should, would and could. Such statements are based on management's current expectations and are subject to risks, uncertainties and changes in circumstances. Actual results and capital and other financial conditions may differ materially from those included in these statements due to a variety of factors, including without limitation the precautionary statements included within each individual business' discussion and analysis of our results of operations and the risk factors listed and described in Item 1A. to Part I, of our Annual Report on Form 10-K for the year ended December 31, 2017 and Item 1A. to Part II, of this Quarterly Report on Form 10-Q, which are incorporated by reference herein.

Other than as required under United States securities laws, Flagstar Bancorp does not undertake to update the forward-looking statements to reflect the impact of circumstances or events that may arise after the date of the forward-looking statements.

Flagstar Bancorp, Inc.
Notes to the Consolidated Financial Statements (Unaudited)

Note 1 - Basis of Presentation

The accompanying financial statements of Flagstar Bancorp, Inc. ("Flagstar," or the "Company"), including its wholly owned principal subsidiary, Flagstar Bank, FSB (the "Bank"), have been prepared using U.S. GAAP for interim financial statements. Where we say "we," "us," "our," the "Company," "Bancorp" or "Flagstar," we usually mean Flagstar Bancorp, Inc. However, in some cases, a reference to "we," "us," "our," the "Company" or "Flagstar" will include the Bank.

These consolidated financial statements do not include all of the information and footnotes required by GAAP for a full year presentation and certain disclosures have been condensed or omitted in accordance with rules and regulations of the SEC. These interim financial statements are unaudited and include, in our opinion, all adjustments necessary for a fair statement of the results for the periods indicated, which are not necessarily indicative of results which may be expected for the full year. These consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017, which is available on our website, at flagstar.com, and on the SEC website, at sec.gov. Certain prior period amounts have been reclassified to conform to the current period presentation.

Acquisitions

On March 12, 2018, we closed the purchase of the mortgage loan warehouse business from Santander Bank, with \$499 million outstanding warehouse loans and \$1.7 billion in commitments. Additionally, on March 19, 2018, we completed the acquisition of eight Desert Community Bank branches in San Bernardino County, California, with \$614 million in deposits and \$59 million in loans. Together, these acquisitions increased goodwill and intangible assets by \$51 million.

Note 2 - Investment Securities

The following table presents our investment securities:

	<u>Amortized Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>

Total available-for-sale securities (1)	<u>\$ 1,887</u>	<u>\$ 1</u>	<u>\$ (35)</u>	<u>\$ 1,853</u>
Held-to-maturity securities				
Agency - Commercial	\$ 526	\$ —	\$ (9)	\$ 517
Agency - Residential	413	—	(6)	407
Total held-to-maturity securities (1)	<u>\$ 939</u>	<u>\$ —</u>	<u>\$ (15)</u>	<u>\$ 924</u>

(1) There were no securities of a single issuer, which are not governmental or government-sponsored, that exceeded 10 percent of stockholders' equity at March 31, 2018 or December 31, 2017.

We evaluate AFS and HTM investment securities for OTTI on a quarterly basis. An OTTI is considered to have occurred when the fair value of a debt security is below its amortized costs and we (1) have the intent to sell the security, (2) will more likely than not be required to sell the security before recovery of its amortized cost, or (3) do not expect to recover the entire amortized cost basis of the security. Investments that have an OTTI are written down through a charge to earnings for the amount representing the credit loss on the security. Gains and losses related to all other factors are recognized in other comprehensive income (loss). Agency securities, which are either explicitly or implicitly backed by the federal government, comprised 97 percent of our total securities at March 31, 2018. This factor is considered when evaluating our investment securities for OTTI. During the three months ended March 31, 2018 and March 31, 2017, we had no OTTI.

Available-for-sale securities

Securities available-for-sale are carried at fair value, with unrealized gains and losses, to the extent they are temporary in nature, and are reported as a component of other comprehensive income.

We purchased \$4 million of AFS securities, which were comprised of corporate debt obligations, during the three months ended March 31, 2018. We purchased \$222 million of AFS securities, which were comprised of U.S. government sponsored agency MBS, corporate debt obligations, and municipal obligations during the three months ended March 31, 2017.

Gains on sales of AFS securities are reported in other noninterest income in the Consolidated Statements of Operations. There were less than \$1 million in sales of AFS securities during the three months ended March 31, 2018 and March 31, 2017, except those related to mortgage loans that had been securitized for sale in the normal course of business.

Held-to-maturity securities

Investment securities HTM are carried at amortized cost and adjusted for amortization of premiums and accretion of discounts using the interest method. Unrealized losses are not recorded to the extent they are temporary in nature.

In conjunction with adoption of ASU 2017-12 (Targeted Improvements to Accounting for Hedging Activities) the Company elected to transfer \$144 million of investment securities from HTM to AFS during the first quarter of 2018, as permitted by the standard, which resulted in a de minimis impact to OCI.

There were no purchases or sales of HTM securities during the three months ended March 31, 2018 and March 31, 2017.

The following table summarizes, by duration, the unrealized loss positions on investment securities:

	Unrealized Loss Position with Duration 12 Months and Over			Unrealized Loss Position with Duration Under 12 Months		
	Fair Value	Number of Securities	Unrealized Loss	Fair Value	Number of Securities	Unrealized Loss
(Dollars in millions)						
March 31, 2018						
Available-for-sale securities						
Agency - Commercial	\$ 211	20	\$ (10)	\$ 881	55	\$ (25)
Agency - Residential	437	38	(22)	311	45	(7)
Municipal obligations	6	3	—	26	15	(1)
Corporate debt obligations	—	—	—	3	1	—
Held-to-maturity securities

The following table shows the amortized cost and estimated fair value of securities by contractual maturity:

	Investment Securities Available-for-Sale			Investment Securities Held-to-maturity		
	Amortized Cost	Fair Value	Weighted Average Yield	Amortized Cost	Fair Value	Weighted Average Yield
(Dollars in millions)						
March 31, 2018						
Due after one year through five years	\$ 58	\$ 57	2.50%	\$ 10	\$ 10	2.45%
Due after five years through 10 years	49	50	4.84%	9	8	2.20%
Due after 10 years	1,875	1,811	2.40%	752	728	2.47%
Total	<u>\$ 1,982</u>	<u>\$ 1,918</u>		<u>\$ 771</u>	<u>\$ 746</u>	

We pledge investment securities, primarily agency collateralized and municipal taxable mortgage obligations, to collateralize lines of credit and/or borrowings. At March 31, 2018, we had pledged investment securities of \$2.1 billion compared to \$2.0 billion at December 31, 2017.

Note 3 - Loans Held-for-Sale

The majority of our mortgage loans originated as LHFS are sold into the secondary market on a whole loan basis or by securitizing the loans into agency, government, or private label mortgage-backed securities. At March 31, 2018 and December 31, 2017, LHFS totaled \$4.7 billion and \$4.3 billion, respectively. During the three months ended March 31, 2018 we had net gain on loan sales associated with LHFS of \$60 million as compared to \$48 million for the three months ended March 31, 2017.

At March 31, 2018 and December 31, 2017, \$18 million and \$21 million, respectively, of LHFS were recorded at lower of cost or fair value. The remainder of the loans in the portfolio are recorded at fair value as we have elected the fair value option.

Note 4 - Loans Held-for-Investment

The following table presents our loans held-for-investment:

	March 31, 2018	December 31, 2017
(Dollars in millions)		
Consumer loans		
Residential first mortgage	\$ 2,818	\$ 2,754
Home equity	671	664
Other	25	25
Total consumer loans	<u>3,514</u>	<u>3,443</u>
Commercial loans		
Commercial real estate (1)	1,985	1,932
Commercial and industrial	1,228	1,196
Warehouse lending	1,407	1,142
Total commercial loans	<u>4,620</u>	<u>4,270</u>
Total loans held-for-investment	<u>\$ 8,134</u>	<u>\$ 7,713</u>

(1) Includes NBV of \$325 million and \$307 million of owner occupied commercial real estate loans at March 31, 2018 and December 31, 2017, respectively.

We had no loan sales during the three months ended March 31, 2018. During the three months ended March 31, 2017, we sold performing and nonperforming, TDR, and non-agency consumer loans with a UPB totaling \$34 million, of which \$10 million were nonperforming. Upon a change in our intent, the loans were transferred to LHFS and subsequently sold resulting in a net gain of less than \$1 million, during the three months ended March 31, 2017, which is recorded in net gain on loan sales on the Consolidated Statements of Operations.

We had no loan purchases during the three months ended March 31, 2018 or during the three months ended March 31, 2017, excluding acquisitions. See Note 1 - Basis for Presentation, for additional information on loans purchased through acquisitions.

We have pledged certain LHFI, LHFS, and loans with government guarantees to collateralize lines of credit and/or borrowings with the FHLB of Indianapolis and the FRB of Chicago. At March 31, 2018 and December 31, 2017, we had pledged loans of \$7.9 billion and \$7.1 billion, respectively.

Allowance for Loan Losses

We determine the estimate of the ALLL on at least a quarterly basis. Refer to Note 1 - Description of Business, Basis of Presentation, and Summary of Significant Accounting Policies to the consolidated financial statements in the Annual Report on Form 10-K for the year ended December 31, 2017 for a description of the methodology. The ALLL, other than for loans that have been identified for individual evaluation for impairment, is determined on a loan pool basis by grouping loan types with common risk characteristics to determine our best estimate of incurred losses.

The following table presents changes in ALLL, by class of loan:

	Residential First Mortgage (1)	Home Equity	Other Consumer	Commercial Real Estate	Commercial and Industrial	Warehouse Lending	Total
(Dollars in millions)							
Three Months Ended March 31, 2018							
Beginning balance ALLL	\$ 47	\$ 22	\$ 1	\$ 45	\$ 19	\$ 6	\$ 140
Charge-offs	(1)	(1)	—	—	—	—	(2)
Recoveries	—	1	—	—	—	—	1
Provision (benefit)	1	(1)	—	(1)	1	—	—
Ending balance ALLL	<u>\$ 47</u>	<u>\$ 21</u>	<u>\$ 1</u>	<u>\$ 44</u>	<u>\$ 20</u>	<u>\$ 6</u>	<u>\$ 139</u>
Three Months Ended March 31, 2017							
Beginning balance ALLL	\$ 65	\$ 24	\$ 1	\$ 28	\$ 17	\$ 7	\$ 142
Charge-offs	(4)	—	(1)	—	—	—	(5)
Recoveries	—	—	1	—	—	—	1
Provision (benefit)	—	(3)	—	4	3	(1)	3
Ending balance ALLL	<u>\$ 61</u>	<u>\$ 21</u>	<u>\$ 1</u>	<u>\$ 32</u>	<u>\$ 20</u>	<u>\$ 6</u>	<u>\$ 141</u>

(1) Includes loans with government guarantees.

The following table sets forth the method of evaluation, by class of loan:

	Residential First Mortgage (1)	Home Equity	Other Consumer	Commercial Real Estate	Commercial and Industrial	Warehouse Lending	Total
(Dollars in millions)							
March 31, 2018							
Loans held-for-investment (2)

Collectively evaluated	41	12	1	45	19	6	124
Total allowance for loan losses	\$ 47	\$ 22	\$ 1	\$ 45	\$ 19	\$ 6	\$ 140

(1) Includes allowance related to loans with government guarantees.

(2) Excludes loans carried under the fair value option.

Loans are considered to be past due when any payment of principal or interest is 30 days past the scheduled payment date. While it is the goal of management to collect on loans, we attempt to work out a satisfactory repayment schedule or modification with past due borrowers and will undertake foreclosure proceedings if the delinquency is not satisfactorily resolved. Our practices regarding past due loans are designed to both assist borrowers in meeting their contractual obligations and minimize losses incurred by the Bank.

We cease the accrual of interest on all classes of consumer and commercial loans upon the earlier of, becoming 90 days past due, or when doubt exists as to the ultimate collection of principal or interest (classified as nonaccrual or nonperforming loans). When a loan is placed on nonaccrual status, the accrued interest income is reversed and the loan may only return to accrual status when principal and interest become current and are anticipated to be fully collectible.

The following table sets forth the LHFI aging analysis of past due and current loans:

	30-59 Days Past Due	60-89 Days Past Due	90 Days or Greater Past Due (1)	Total Past Due	Current	Total LHFI
(Dollars in millions)						
March 31, 2018						
Consumer loans						
Residential first mortgage	\$ 3	\$ —	\$ 23	\$ 26	\$ 2,792	\$ 2,818
Home equity	1	1	6	8	663	671
Other	—	—	—	—	25	25
Total consumer loans	4	1	29	34	3,480	3,514
Commercial loans						
Commercial real estate	—	—	—	—	1,985	1,985
Commercial and industrial	—	—	—	—	1,228	1,228
Warehouse lending	—	—	—	—	1,407	1,407
Total commercial loans	—	—	—	—	4,620	4,620
Total loans (2)	\$ 4	\$ 1	\$ 29	\$ 34	\$ 8,100	\$ 8,134
December 31, 2017						
Consumer loans						
Residential first mortgage	\$ 2	\$ 2	\$ 23	\$ 27	\$ 2,727	\$ 2,754
Home equity	1	—	6	7	657	664
Other	—	—	—	—	25	25
Total consumer loans	3	2	29	34	3,409	3,443
Commercial loans						
Commercial real estate	—	—	—	—	1,932	1,932
Commercial and industrial	—	—	—	—	1,196	1,196
Warehouse lending	—	—	—	—	1,142	1,142
Total commercial loans	—	—	—	—	4,270	4,270
Total loans (2)	\$ 3	\$ 2	\$ 29	\$ 34	\$ 7,679	\$ 7,713

(1) Includes less than 90 day past due performing loans which are deemed nonaccrual. Interest is not being accrued on these loans.

(2) Includes \$4 million of loans 90 days or greater past due, accounted for under the fair value option at both March 31, 2018 and December 31, 2017, respectively.

Interest income is recognized on nonaccrual loans using a cash basis method. Interest that would have been accrued on impaired loans totaled less than \$1 million and \$1 million during the three months ended March 31, 2018 and March 31, 2017, respectively. At March 31, 2018 and December 31, 2017, we had no loans 90 days past due and still accruing interest.

Troubled Debt Restructurings

We may modify certain loans in both our consumer and commercial loan portfolios to retain customers or to maximize collection of the outstanding loan balance. We have programs designed to assist borrowers by extending payment dates or reducing the borrower's contractual payments. All loan modifications are made on a case-by-case basis. Our standards relating to loan modifications consider, among other factors, minimum verified income requirements, cash flow analysis, and collateral valuations. TDRs result in those instances in which a borrower demonstrates financial difficulty and for which a concession has been granted, which includes reductions of interest rate, extensions of amortization period, principal and/or interest forgiveness and other actions intended to minimize the economic loss and to avoid foreclosure or repossession of collateral. These loans are classified as nonperforming TDRs if the loan was nonperforming prior to the restructuring, or based upon the results of a contemporaneous credit evaluation. Such loans will continue on nonaccrual status until the borrower has established a willingness and ability to make the restructured payments for at least six months, after which they will be classified as performing TDRs and begin to accrue interest. Performing and nonperforming TDRs remain impaired as interest and principal will not be received in accordance with the original contractual terms of the loan agreement.

Some loan modifications classified as TDRs may not ultimately result in the full collection of principal and interest, as modified, but may give rise to potential incremental losses. We measure impairments using a discounted cash flow method for performing TDRs and measure impairment based on collateral values for nonperforming TDRs.

The following table provides a summary of TDRs by type and performing status:

	TDRs		
	Performing	Nonperforming	Total
(Dollars in millions)			
March 31, 2018			
Consumer loans			
Residential first mortgage	\$ 20	\$ 10	\$ 30
Home Equity	24	5	29
Total consumer TDR loans	44	15	59
Commercial loans			
Commercial and industrial	5	—	5
Total TDRs (1)(2)	\$ 49	\$ 15	\$ 64
December 31, 2017			
Consumer loans			
Residential first mortgage	\$ 19	\$ 12	\$ 31
Home equity	24	4	28
Total TDRs (1)(2)	\$ 43	\$ 16	\$ 59

(1) The ALLL on TDR loans totaled \$13 million at both March 31, 2018 and December 31, 2017.

(2) Includes \$3 million of TDR loans accounted for under the fair value option at both March 31, 2018 and December 31, 2017.

The following table provides a summary of newly modified TDRs:

	New TDRs			
	Number of Accounts	Pre-Modification Unpaid Principal Balance	Post-Modification Unpaid Principal Balance (1)	Increase in Allowance at Modification
(Dollars in millions)				
Three Months Ended March 31, 2018				
Residential first mortgages	6	\$ 1	\$ 1	\$ —
Home equity (2)	5	1	1	—
Commercial and industrial	1	5	5	1
Total TDR loans	12	\$ 7	\$ 7	\$ 1
Three Months Ended March 31, 2017				
Residential first mortgages	2	\$ —	\$ —	\$ —
Home equity (2)(3)	14	1	1	—
Total TDR loans	16	\$ 1	\$ 1	\$ —

(1) Post-modification balances include past due amounts that are capitalized at modification date.

(2) Home equity post-modification UPB reflects write downs.

(3) Includes loans carried at the fair value option.

There were 2 residential first mortgage loans with a UPB of \$1 million that were modified in the previous 12 months, which have subsequently defaulted during the three months ended March 31, 2018, as compared to no TDRs that were modified in the previous 12 months, which had subsequently defaulted during the three months ended March 31, 2017. There was no change in the allowance associated with these TDRs at subsequent default. All TDR classes within the consumer and commercial portfolios are considered subsequently defaulted when greater than 90 days past due. Subsequent default is defined as a payment re-defaulted within 12 months of the restructuring date.

Impaired Loans

The following table presents individually evaluated impaired loans and the associated allowance:

	March 31, 2018			December 31, 2017		
	Recorded Investment	Net Unpaid Principal Balance	Related Allowance	Recorded Investment	Net Unpaid Principal Balance	Related Allowance
(Dollars in millions)						
With no related allowance recorded						
Consumer loans						
Residential first mortgage	\$ 12	\$ 13	\$ —	\$ 11	\$ 12	\$ —
Total consumer loans with no related allowance recorded	\$ 12	\$ 13	\$ —	\$ 11	\$ 12	\$ —
With an allowance recorded						
Consumer loans						
Residential first mortgage	\$ 22	\$ 22	\$ 5	\$ 22	\$ 22	\$ 6
Home equity	27	26	10	24	27	10
Total consumer loans with an allowance recorded	\$ 49	\$ 48	\$ 15	\$ 46	\$ 49	\$ 16
Commercial loans						
Commercial and industrial	\$ 5	\$ 5	\$ 1	\$ —	\$ —	\$ —
Total commercial loans with an allowance recorded	\$ 5	\$ 5	\$ 1	\$ —	\$ —	\$ —
Total loans with an allowance recorded	\$ 54	\$ 53	\$ 16	\$ 46	\$ 49	\$ 16

Total Impaired loans						
Consumer Loans						
Residential first mortgage	\$ 34	\$ 35	\$ 5	\$ 33	\$ 34	\$ 6

Commercial loans						
Commercial and industrial	5	5	1	—	—	—
Total impaired loans	\$ 66	\$ 66	\$ 16	\$ 57	\$ 61	\$ 16

The following table presents average impaired loans and the interest income recognized:

	Three Months Ended March 31,			
	2018		2017	
	Average Recorded Investment	Interest Income Recognized	Average Recorded Investment	Interest Income Recognized
(Dollars in millions)				
Consumer loans				
Residential first mortgage	\$ 33	\$ —	\$ 42	\$ —
Home equity	27	1	28	1
Commercial loans				
Commercial and industrial	3	—	—	—
Total impaired loans	\$ 63	\$ 1	\$ 70	\$ 1

Credit Quality

We utilize an internal risk rating system which is applied to all consumer and commercial loans. Descriptions of our internal risk ratings as they relate to credit quality follow the ratings used by the U.S. bank regulatory agencies as listed below.

Pass. Pass assets are not impaired nor do they have any known deficiencies that could impact the quality of the asset.

Watch. Watch assets are defined as pass rated assets that exhibit elevated risk characteristics or other factors that deserve management's close attention and increased monitoring. However, the asset does not exhibit a potential or well-defined weakness that would warrant a downgrade to criticized or adverse classification.

Special mention. Assets identified as special mention possess credit deficiencies or potential weaknesses deserving management's close attention. Special mention assets have a potential weakness or pose an unwarranted financial risk that, if not corrected, could weaken the assets and increase risk in the future. Special mention assets are criticized, but do not expose an institution to sufficient risk to warrant adverse classification.

Substandard. Assets identified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses that jeopardize the full collection or liquidation of the debt. They are characterized by the distinct possibility that we will sustain some loss if the deficiencies are not corrected. For home equity loans and other consumer loans, we evaluate credit quality based on the aging and status of payment activity and any other known credit characteristics that call into question full repayment of the asset. Nonperforming loans are classified as either substandard, doubtful or loss.

Doubtful. An asset classified as doubtful has all the weaknesses inherent in one classified substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. A doubtful asset has a high probability of total or substantial loss, but because of specific pending events that may strengthen the asset, its classification as loss is deferred. Doubtful borrowers are usually in default, lack adequate liquidity or capital, and lack the resources necessary to remain an operating entity. Pending events can include mergers, acquisitions, liquidations, capital injections, the perfection of liens on additional collateral, the valuation of collateral, and refinancing. Generally, pending events should be resolved within a relatively short period and the ratings will be adjusted based on the new information. Due to the high probability of loss, doubtful assets are placed on non-accrual.

Loss. An asset classified as loss is considered uncollectible and of such little value that the continuance as a bankable asset is not warranted. This classification does not mean that an asset has absolutely no recovery or salvage value, but, rather that it is not practical or desirable to defer writing off this basically worthless asset even though partial recovery may be affected in the future.

Consumer Loans

Consumer loans consist of open and closed end loans extended to individuals for household, family, and other personal expenditures, and includes consumer loans, and loans to individuals secured by their personal residence, including first mortgage, home equity, and home improvement loans. Because consumer loans are usually relatively small-balance, homogeneous exposures, consumer loans are rated primarily on payment performance. Payment performance is a proxy for the strength of repayment capacity and loans are generally classified based on their payment status rather than by an individual review of each loan.

In accordance with regulatory guidance, we assign risk ratings to consumer loans in the following manner:

- Consumer loans are classified as Watch once the loan becomes 60 days past due.
- Open and closed-end consumer loans 90 days or more past due are classified Substandard.

Commercial Loans

Management conducts periodic examinations which serve as an independent verification of the accuracy of the ratings assigned. Loan grades are based on different factors within the borrowing relationship: entity sales, debt service coverage, debt/total net worth, liquidity, balance sheet and income statement trends, management experience, business stability, financing structure, and financial reporting requirements. The underlying collateral is also rated based on the specific type of collateral and corresponding LTV. The combination of the borrower and collateral risk ratings results in the final rating for the borrowing relationship.

	March 31, 2018				
	Pass	Watch	Special Mention	Substandard	Total Loans
	(Dollars in millions)				
Consumer Loans					
Residential First Mortgage	\$ 2,770	\$ 24	\$ —	\$ 24	\$ 2,818
Home equity	641	24	—	6	671

Home equity	633	25	—	6	664
Other Consumer	25	—	—	—	25
Total Consumer Loans	\$ 3,364	\$ 48	\$ —	\$ 31	\$ 3,443
Commercial Loans					
Commercial Real Estate	\$ 1,902	\$ 23	\$ 7	\$ —	\$ 1,932
Commercial and Industrial	1,135	32	24	5	1,196
Warehouse	1,014	128	—	—	1,142
Total Commercial Loans	\$ 4,051	\$ 183	\$ 31	\$ 5	\$ 4,270

Note 5 - Loans with Government Guarantees

Substantially all loans with government guarantees are insured or guaranteed by the FHA or the U.S. Department of Veterans Affairs. FHA loans earn interest at a rate based upon the 10-year U.S. Treasury note rate at the time the underlying loan becomes delinquent, which is not paid by the FHA or the U.S. Department of Veterans Affairs until claimed. Certain loans within our portfolio may be subject to indemnifications and insurance limits which expose us to limited credit risk. We have reserved for these risks within other assets and as a component of our ALLL on residential first mortgages.

At March 31, 2018 and December 31, 2017, respectively, loans with government guarantees totaled \$286 million and \$271 million.

At March 31, 2018 and December 31, 2017, respectively, repossessed assets and the associated claims recorded in other assets totaled \$69 million and \$84 million.

Note 6 - Variable Interest Entities

We have no consolidated VIEs as of March 31, 2018 and December 31, 2017.

We have a continuing involvement, but are not the primary beneficiary for one unconsolidated VIE related to the FSTAR 2007-1 mortgage securitization trust. In accordance with the settlement agreement with MBIA, there is no further recourse to us related to FSTAR 2007-1, unless MBIA fails to meet their obligations. At March 31, 2018 and December 31, 2017, the FSTAR 2007-1 mortgage securitization trust included 1,812 loans and 1,911 loans, respectively, with an aggregate principal balance of \$61 million and \$65 million, respectively.

Note 7 - Mortgage Servicing Rights

We have investments in MSR that result from the sale of loans to the secondary market for which we retain the servicing. We account for MSR at their fair value. A primary risk associated with MSR is the potential reduction in fair value as a result of higher than anticipated prepayments due to loan refinancing prompted, in part, by declining interest rates or government intervention. Conversely, these assets generally increase in value in a rising interest rate environment to the extent that prepayments are slower than anticipated. We utilize derivatives as economic hedges to offset changes in the fair value of the MSR resulting from the actual or anticipated changes in prepayments stemming from changing interest rate environments. There is also a risk of valuation decline due to higher than expected increases in default rates, which we do not believe can be effectively managed using derivatives. For further information regarding the derivative instruments utilized to manage our MSR risks, see Note 8 - Derivative Financial Instruments.

Changes in the fair value of residential first mortgage MSR were as follows:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Balance at beginning of period	\$ 291	\$ 335
Additions from loans sold with servicing retained	84	21
Reductions from sales	(141)	(65)
Changes in fair value due to (1):		
Decrease in MSR value due to pay-offs, pay-downs and run-off	(4)	(6)
Changes in estimates of fair value (2)	9	10
Fair value of MSR at end of period	<u>\$ 239</u>	<u>\$ 295</u>

(1) Changes in fair value are included within net return on mortgage servicing rights on the Consolidated Statements of Operations.

(2) Represents estimated MSR value change resulting primarily from market-driven changes.

The following table summarizes the hypothetical effect on the fair value of servicing rights using adverse changes of 10 percent and 20 percent to the weighted average of certain significant assumptions used in valuing these assets. The significant unobservable inputs used in the fair value measurement of the MSR are option adjusted spread, prepayment rate and cost to service. Significant increases (decreases) in all three assumptions in isolation would result in a significantly lower (higher) fair value measurement.

	March 31, 2018			December 31, 2017		
	Actual	Fair value impact due to		Actual	Fair value impact due to	
		10% adverse change	20% adverse change		10% adverse change	20% adverse change
	(Dollars in millions)					
Option adjusted spread	6.65%	\$ 234	\$ 231	6.29%	\$ 286	\$ 282
Constant prepayment rate	9.94%	233	228	9.93%	283	277
Weighted average cost to service per loan	\$ 77.00	236	234	\$ 73.00	288	286

The sensitivity calculations above are hypothetical and should not be considered to be predictive of future performance. Changes in fair value based on adverse changes in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. To isolate the effect of the specified change, the fair value shock analysis is consistent with the identified adverse change, while holding all other assumptions constant. In practice, a change in one assumption generally impacts other assumptions, which may either magnify or counteract the effect of the change. For further information on fair value disclosures relating to MSR, see Note 17 - Fair Value Measurements.

Contractual servicing and subservicing fees. Contractual servicing and subservicing fees, including late fees and other ancillary income are presented below. Contractual servicing fees are included within net (loss) return on mortgage servicing rights on the Consolidated Statements of Operations. Contractual subservicing fees including late fees and other ancillary income are included within loan administration income on the Consolidated Statements of Operations. Subservicing fee income is recorded for fees earned, net of third party subservicing costs, for loans subserviced.

The following table summarizes income and fees associated with contractual servicing rights:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Net return on mortgage servicing rights		
Servicing fees, ancillary income and late fees (1)	\$ 14	\$ 20
Changes in fair value	5	4
Gain (loss) on MSR derivatives (2)	(11)	(8)
Net transaction costs	(4)	(2)
Total return included in net return on mortgage servicing rights	<u>\$ 4</u>	<u>\$ 14</u>
(1) Servicing fees are recorded on an accrual basis. Ancillary income and late fees are recorded on a cash basis.		
(2) Changes in the derivatives utilized as economic hedges to offset changes in fair value of the MSRs.		

The following table summarizes income and fees associated with our mortgage loans subserviced:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Loan administration income on mortgage loans subserviced		
Servicing fees, ancillary income and late fees (1)	\$ 10	\$ 8
Other servicing charges	(5)	(2)
Total income on mortgage loans subserviced, included in loan administration	<u>\$ 5</u>	<u>\$ 6</u>
(1) Servicing fees are recorded on an accrual basis. Ancillary income and late fees are recorded on cash basis.		

Note 8 - Derivative Financial Instruments

Derivative financial instruments are recorded at fair value in other assets and other liabilities on the Consolidated Statements of Financial Condition. The Company's policy is to present its derivative assets and derivative liabilities on the Consolidated Statement of Financial Condition on a gross basis, even when provisions allowing for set-off are in place. However, for derivative contracts cleared through certain central clearing parties, variation margin payments are recognized as settlements. We are exposed to non-performance risk by the counterparties to our various derivative financial instruments. A majority of our derivatives are centrally cleared through a Central Counterparty Clearing House or consist of residential mortgage interest rate lock commitments further limiting our exposure to non-performance risk. We believe that the non-performance risk inherent in our remaining derivative contracts is minimal based on credit standards and the collateral provisions of the derivative agreements.

Derivatives not designated as hedging instruments: We maintain a derivative portfolio of interest rate swaps, futures and forward commitments used to manage exposure to changes in interest rates, MSR asset values and to meet the needs of customers. We also enter into interest rate lock commitments, which are commitments to originate mortgage loans whereby the interest rate on the loan is determined prior to funding and the customers have locked into that interest rate. Market risk on interest rate lock commitments and mortgage LHFS is managed using corresponding forward sale commitments. Changes in fair value of derivatives not designated as hedging instruments are recognized in the Consolidated Statements of Income.

Derivatives designated as hedging instruments: We have designated certain interest rate swaps as cash flow hedges of certain interest rate payments of our variable-rate FHLB advances and fair value hedges of fixed rate certificates of deposit.

Changes in the fair value of derivatives designated as cash flow hedges are recorded in other comprehensive income (loss) on the Consolidated Statement of Financial Condition and reclassified into interest expense in the same period in which the hedge transaction is recognized in earnings. At March 31, 2018, we had \$17 million (net-of-tax) of unrealized gains on derivatives designated as cash flow hedges recorded in accumulated other comprehensive income (loss), compared to \$2 million (net-of-tax) of unrealized gains on derivatives designated as cash flow hedges recorded in accumulated other comprehensive income (loss) at December 31, 2017. The estimated amount to be reclassified from other comprehensive income into earnings during the next 12 months represents \$2 million of gains (net-of-tax). For further information regarding derivatives designated as cash flow hedges, see Note 11 - Accumulated Other Comprehensive Income.

Derivatives that are designated in hedging relationships are assessed for effectiveness using regression analysis at inception. All hedge relationships were highly effective as of March 31, 2018. Cash flows and the income impact associated with designated hedges are reported in the same line item as the underlying hedged item.

The following table presents the notional amount, estimated fair value and maturity of our derivative financial instruments:

	March 31, 2018 (1)		
	Notional Amount	Fair Value (2)	Expiration Dates
	(Dollars in millions)		
Derivatives in cash flow hedge relationships:			
Assets			
Interest rate swaps on FHLB advances	\$ 830	\$ —	2023-2026
Derivatives in fair value hedge relationships:

Liabilities					
Futures	\$ —	\$ —	\$ —	\$ —	\$ 2
Mortgage-backed securities forwards	6	—	6	—	2
Interest rate swaps (1)	4	—	4	—	5
Total derivative liabilities	\$ 10	\$ —	\$ 10	\$ —	\$ 9

(1) Variation margin pledged to or received from a Central Counterparty Clearing House to cover the prior day's fair value of open positions, is considered settlement of the derivative position for accounting purposes.

The fair value basis adjustment on our hedged CDs is included in interest bearing deposits on our Consolidated Statements of Operations. The carrying amount of our hedged CDs was \$30 million at March 31, 2018 and zero at March 31, 2017 and the cumulative amount of fair value hedging adjustment included in the carrying amount of the hedged CDs was de minimis at March 31, 2018 and zero at March 31, 2017.

At March 31, 2018, we pledged a total of \$24 million related to derivative financial instruments, consisting of \$7 million of cash collateral on derivative liabilities and \$17 million of maintenance margin on centrally cleared derivatives and had an obligation to return cash of \$13 million on derivative assets. We pledged a total of \$26 million related to derivative

financial instruments, consisting of \$7 million of cash collateral on derivatives and \$19 million of maintenance margin on centrally clear derivatives and had an obligation to return cash of \$18 million on derivative assets at December 31, 2017. Within the Consolidated Statements of Financial Condition, the collateral related to derivative activity is included in other assets and other liabilities and the cash pledged as maintenance margin is restricted and included in in other assets.

The following table presents the net gain (loss) recognized on designated instruments, net of the impact of offsetting positions:

	Amount recorded in Interest Income (Expense)	
	Three Months Ended March 31,	
	2018	2017
(Dollars in millions)		
Gain (loss) on fair value hedging relationships in Interest contracts		
Hedged items	\$ —	\$ —
Derivatives designated as hedging instruments	—	—
Gain (loss) on cash flow hedging relationships in Interest contracts		
Amount of gain (loss) reclassified from AOCI into income	(1)	—
Total gain (loss) on hedges	<u>\$ (1)</u>	<u>\$ —</u>

The following table presents net gain (loss) recognized in income on derivative instruments, net of the impact of offsetting positions:

	Location of Gain (Loss)	Three Months Ended March 31,	
		2018	2017
(Dollars in millions)			
Derivatives not designated as hedging instruments:			
Futures	Net return (loss) on mortgage servicing rights	\$ (2)	\$ —
Interest rate swaps and swaptions	Net return (loss) on mortgage servicing rights	(5)	(8)
Mortgage-backed securities forwards	Net return (loss) on mortgage servicing rights	(4)	—
Rate lock commitments and forward agency and loan sales	Net gain (loss) on loan sales	(8)	(49)
Total derivative gain (loss)		<u>\$ (19)</u>	<u>\$ (57)</u>

Note 9 - Borrowings

Federal Home Loan Bank Advances

The following is a breakdown of our FHLB advances outstanding:

	March 31, 2018		December 31, 2017	
	Amount	Rate	Amount	Rate
(Dollars in millions)				
Short-term fixed rate term advances	\$ 4,000	1.77%	\$ 4,260	1.40%
Short-term variable adjustable rate (1)	153	2.06%	—	—%
Total Short-term Federal Home Loan Bank advances	4,153		4,260	
Long-term LIBOR adjustable advances	1,130	2.22%	1,130	1.76%
Long-term fixed rate advances (2)	150	1.53%	275	1.41%
Total Long-term Federal Home Loan Bank advances	1,280		1,405	
Total Federal Home Loan Bank advances	<u>\$ 5,433</u>		<u>\$ 5,665</u>	

(1) Includes short-term variable adjustable rate federal funds line of credit.

(2) Includes the current portion of fixed rate advances of \$0 million and \$125 million at March 31, 2018 and December 31, 2017, respectively.

We are required to maintain a minimum amount of qualifying collateral. In the event of default, the FHLB advance is similar to a secured borrowing, whereby the FHLB has the right to sell the pledged collateral to settle the fair value of the outstanding advances.

At March 31, 2018, we had the authority and approval from the FHLB to utilize a line of credit of up to \$10.0 billion and we may access that line to the extent that collateral is provided. At March 31, 2018, we had \$5.4 billion of advances outstanding and an additional \$1.4 billion of collateralized borrowing capacity available at FHLB. The advances can be collateralized by non-delinquent single-family residential first mortgage loans, loans with government guarantees, certain other loans and investment securities.

At March 31, 2018, \$1.1 billion of the outstanding advances were long-term adjustable rate, with interest rates that reset every three months and are based on the three-month LIBOR index. The advances may be prepaid without penalty, with notification at scheduled three month intervals after an initial 12 month lockout period which is based on the settlement date of each advance. The outstanding advances included \$830 million in a cash flow hedge relationship as discussed in Note 8 - Derivative Financial Instruments.

The following table contains detailed information on our FHLB advances and other borrowings:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Maximum outstanding at any month end	\$ 5,740	\$ 4,386
Average outstanding balance	5,322	3,022
Average remaining borrowing capacity	1,399	1,673
Weighted average interest rate	1.65%	1.18%

The following table outlines the maturity dates of our FHLB advances and other borrowings:

	March 31, 2018
	(Dollars in millions)
2018	\$ 4,153
2019	50
2020	—
2021	—
Thereafter	1,230
Total	<u>\$ 5,433</u>

Parent Company Senior Notes and Trust Preferred Securities

The following table presents long-term debt, net of debt issuance costs:

	March 31, 2018		December 31, 2017	
	Amount	Interest Rate	Amount	Interest Rate
	(Dollars in millions)			
Senior Notes				
Senior notes, matures 2021	\$ 247	6.125%	\$ 247	6.125%

2.00%, matures 2035	26	3.72%	26	3.36%
1.75%, matures 2035	51	3.87%	51	3.34%
1.50%, matures 2035	25	3.22%	25	2.86%
1.45%, matures 2037	25	3.57%	25	3.04%
2.50%, matures 2037	16	4.62%	16	4.09%
Total Trust Preferred Securities	<u>247</u>		<u>247</u>	
Total other long-term debt	<u>\$ 494</u>		<u>\$ 494</u>	

Senior Notes

On July 11, 2016, we issued \$250 million of senior notes ("Senior Notes") which mature on July 15, 2021. The notes are unsecured and rank equally and ratably with the unsecured senior indebtedness of Flagstar Bancorp, Inc.

Prior to June 15, 2021, we may redeem some or all of the Senior Notes at a redemption price equal to the greater of 100 percent of the aggregate principal amount of the notes to be redeemed or the sum of the present values of the remaining scheduled payments discounted to the redemption date on a semi-annual basis using a discount rate equal to the Treasury Rate plus 0.50 percent, plus, in each case accrued and unpaid interest.

Trust Preferred Securities

We sponsor nine trust subsidiaries, which issued preferred stock to third party investors. We issued trust preferred securities to those trusts, which we have included in long-term debt. The trust preferred securities are the sole assets of those trusts.

The trust preferred securities are callable by us at any time. Interest is payable quarterly; however, we may defer interest payments for up to 20 quarters without default or penalty. As of March 31, 2018, we had no deferred interest.

Note 10 - Warrants

May Investor Warrant

We granted warrants (the "May Investor Warrants") on January 30, 2009 under anti-dilution provisions applicable to certain investors (the "May Investors") in our May 2008 private placement capital raise.

During the three months ended March 31, 2017, a total of 237,627 May Investor Warrants were exercised, resulting in the issuance of 154,313 shares of Common Stock. As of March 31, 2018, there were no remaining May Investor Warrants outstanding and the related liability was reduced to zero.

TARP Warrant

On January 30, 2009, in conjunction with the sale of 266,657 shares of TARP Preferred, we issued a warrant to purchase up to approximately 645,138 shares of Common Stock at an exercise price of \$62.00 per share (the "Warrant").

The Warrant is exercisable through January 30, 2019 and remains outstanding.

Note 11 - Accumulated Other Comprehensive Income (Loss)

The following table sets forth the components in accumulated other comprehensive income (loss):

	Three Months Ended March 31,	
	2018	2017
(Dollars in millions)		
Investment securities		
Beginning balance	\$ (18)	\$ (8)
Unrealized gain (loss)	(32)	—
Less: Tax (benefit) provision	(8)	—
Net unrealized gain (loss)	(24)	—
Reclassification of certain income tax effects (1)	(5)	—
Other comprehensive income (loss), net of tax	(29)	—
Ending balance	\$ (47)	\$ (8)
Cash Flow Hedges		
Beginning balance	\$ 2	\$ 1
Unrealized gain	19	2
Less: Tax provision	5	1
Net unrealized gain	14	1
Reclassifications out of AOCI (2)	1	—
Less: Tax provision	—	—
Net unrealized gain reclassified out of AOCI	1	—
Other comprehensive income, net of tax	15	1
Ending balance	\$ 17	\$ 2

(1) Income tax effects of the Tax Cuts and Jobs Act are reclassified from AOCI to retained earnings due to early adoption of ASU 2018-02.

(2) Reclassifications are reported in interest expense on the Consolidated Statement of Operations.

Note 12 - Earnings Per Share

Basic earnings per share, excluding dilution, is computed by dividing earnings applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised and converted into common stock or resulted in the issuance of common stock that could then share in our earnings.

The following table sets forth the computation of basic and diluted earnings per share of common stock:

	Three Months Ended March 31,	
	2018	2017
(Dollars in millions, except share data)		
Net income	\$ 35	\$ 27
Weighted Average Shares		
Weighted average common shares outstanding	57,356,654	56,921,605
Effect of dilutive securities		
May Investor Warrants	—	49,149
Stock-based awards	957,731	1,101,809
Weighted average diluted common shares	58,314,385	58,072,563
Earnings per common share		
Basic earnings per common share	\$ 0.61	\$ 0.47
Effect of dilutive securities		
May Investor Warrants	—	—
Stock-based awards	(0.01)	(0.01)
Diluted earnings per common share	\$ 0.60	\$ 0.46

Note 13 - Stock-Based Compensation

We had stock-based compensation expense of \$2 million and \$4 million for the three months ended March 31, 2018 and March 31, 2017, respectively.

Restricted Stock and Restricted Stock Units

The following table summarizes restricted stock activity:

	Three Months Ended March 31, 2018	
	Shares	Weighted — Average Grant-Date Fair Value per Share
Restricted Stock and Restricted Stock Units		
Non-vested balance at beginning of period	1,290,450	\$ 20.52
Granted	609,274	34.22
Vested	(49,382)	26.18
Canceled and forfeited	(20,210)	25.18
Non-vested balance at end of period	1,830,132	\$ 24.87

2017 Employee Stock Purchase Plan

The Employee Stock Purchase Plan ("2017 ESPP") was approved on March 20, 2017 by our Board of Directors ("the Board") and on May 23, 2017 by our shareholders. The 2017 ESPP became effective July 1, 2017 and will remain effective until terminated by the Board. A total of 800,000 shares of the Company's common stock are reserved and authorized for issuance for purchase under the 2017 ESPP. There were 36,195 shares issued under the 2017 ESPP and our associated compensation expense was de minimis, during the three months ended March 31, 2018.

Note 14 - Income Taxes

The provision for income taxes in interim periods requires us to make a best estimate of the effective tax rate expected to be applicable for the full year, adjusted for any discreet items for the applicable period. This estimated effective tax rate is then applied to interim consolidated pre-tax operating income to determine the interim provision for income taxes. The 2018 effective tax rate includes our assessment of the impact of the Tax Cuts and Jobs Act.

The following table presents our provision for income tax and effective tax provision rate:

	Three Months Ended March 31,	
	2018	2017
	(Dollars in millions)	
Provision for income taxes	\$ 9	\$ 13
Effective tax provision rate	20.1%	33.1%

We believe that it is unlikely that our unrecognized tax benefits will change by a material amount during the next 12 months. We recognize interest and penalties related to unrecognized tax benefits in provision for income taxes.

Note 15 - Regulatory Matters

Regulatory Capital

We, along with the Bank, must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that could have a material effect on the Consolidated Financial Statements. On January 1, 2015, the Basel III rules became effective and included transition provisions through 2018. In preparation for the NPR, the Basel III implementation phase-in has been halted, as the agencies issued a final rule that will maintain the capital rules' 2017 transition provisions for several regulatory capital deductions and certain other requirements that are subject to multi-year phase-in schedules in the regulatory capital rules.

To be categorized as "well-capitalized," the Company and the Bank must maintain minimum tangible capital, Tier 1 capital, common equity Tier 1, and total capital ratios as set forth in the table below. We, along with the Bank, are considered "well-capitalized" at both March 31, 2018 and December 31, 2017.

The following tables present the regulatory capital ratios as of the dates indicated:

Flagstar Bancorp	Actual		For Capital Adequacy Purposes		Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in millions)						
March 31, 2018

N/A - Not applicable

Note 16 - Legal Proceedings, Contingencies and Commitments

Legal Proceedings

We and our subsidiaries are subject to various pending or threatened legal proceedings arising out of the normal course of business operations. In addition, the Bank is routinely named in civil actions throughout the country by borrowers and former borrowers relating to the origination, purchase, sale, and servicing of mortgage loans. From time to time, governmental agencies also conduct investigations or examinations of various practices of the Bank. In the course of such investigations or examinations, the Bank cooperates with such agencies and provides information as requested.

We assess the liabilities and loss contingencies in connection with pending or threatened legal and regulatory proceedings on at least a quarterly basis and establish accruals when we believe it is probable that a loss may be incurred and

that the amount of such loss can be reasonably estimated. Once established, litigation accruals are adjusted, as appropriate, in light of additional information.

At March 31, 2018, we do not believe that the amount of any reasonably possible losses in excess of any amounts accrued with respect to ongoing proceedings or any other known claims will be material to our financial statements, or that the ultimate outcome of these actions will have a material adverse effect on our financial condition, results of operations or cash flows.

DOJ litigation settlement

In 2012, the Bank entered into a Settlement Agreement with the DOJ which meets the definition of a financial liability (the "DOJ Liability").

In accordance with the Settlement Agreement, we made an initial payment of \$15 million and agreed to make future annual payments totaling \$118 million in annual increments of up to \$25 million upon meeting all conditions, which are evaluated quarterly and include: (a) the reversal of the DTA valuation allowance, which occurred at the end of 2013; (b) the repayment of the Fixed Rate Cumulative Perpetual Preferred Stock, Series C (the "TARP Preferred"), which occurred in the third quarter of 2016; and (c) the Bank's Tier 1 Leverage Capital Ratio equals 11 percent or greater as filed in the Call Report with the OCC.

No payment would be required until six months after the Bank files its Call Report with the OCC first reporting that its Tier 1 Leverage Capital Ratio was 11 percent or greater. If all other conditions were then satisfied, an initial annual payment would be due at that time. The next annual payment is only made if such other conditions continue to be satisfied, otherwise payments are delayed until all such conditions are met. Further, making such a payment must not violate any material banking regulatory requirement, and the OCC must not object in writing.

Consistent with our business and regulatory requirements, Flagstar shall seek in good faith to fulfill the conditions, and will not undertake any conduct or fail to take any action the purpose of which is to frustrate or delay our ability to fulfill any of the above conditions.

Additionally, if the Bank and Bancorp become party to a business combination in which the Bank or Bancorp represent less than 33.3 percent of the resulting company's assets. Annual payments must commence twelve months after the date of that business combination.

We elected to account for the DOJ Liability under the fair value option. To determine the fair value, we utilize a discounted cash flow model. Key assumptions for the discounted cash flow model include using a discount rate as of March 31, 2018 of 10.1 percent; probability weightings of multiple cash flow scenarios and possible outcomes which contemplate the above conditions and estimates of forecasted net income, size of the balance sheet, capital levels, dividends and their impact on the timing of cash payments and the assumptions we believe a market participant would make to transfer the liability. The fair value of the DOJ Liability was \$60 million at both March 31, 2018 and December 31, 2017, respectively.

Other litigation accruals

At March 31, 2018 and December 31, 2017, excluding the fair value liability relating to the DOJ litigation settlement, our total accrual for contingent liabilities and settled litigation was \$2 million and \$1 million, respectively.

Commitments

The following table is a summary of the contractual amount of significant commitments:

	March 31, 2018	December 31, 2017
	(Dollars in millions)	
Commitments to extend credit		
Mortgage loans interest-rate lock commitments	\$ 3,909	\$ 3,667
Warehouse loan commitments	2,902	1,618
Commercial and industrial commitments	691	695
Other commercial commitments	951	1,021
HELOC commitments	318	283
Other consumer commitments	33	15
Standby and commercial letters of credit	54	50

Commitments to extend credit are agreements to lend to a customer as long as there is not a violation of any condition established in the contract. Since many of these commitments expire without being drawn upon, the total commitment amounts do not necessarily represent future cash flow requirements. Commitments generally have fixed expiration dates or other termination clauses. We evaluate each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by us, upon extension of credit is based on management's credit evaluation of the counterparties.

These instruments involve, to varying degrees, elements of credit and interest rate risk beyond the amount recognized on the Consolidated Statements of Financial Condition. Our exposure to credit losses in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amount of those instruments. We utilize the same credit policies in making commitments and conditional obligations as we do for balance sheet instruments. The types of credit we extend are as follows:

Mortgage loan interest-rate lock commitments. We enter into mortgage interest-rate lock commitments with our customers. These commitments are considered to be derivative instruments and the fair value of these commitments is recorded in the Consolidated Statements of Financial Condition in other assets. For further information, see Note 8 - Derivative Financial Instruments.

Warehouse loan commitments. Lines of credit provided to mortgage originators to fund loans they originate and then sell. The proceeds of the sale of the loans are used to repay the draw on the line used to fund the loans. See Note 1 - Basis for Presentation, for further information on our mortgage loan warehouse business acquisition.

Commercial and industrial and other commercial commitments. Conditional commitments issued under various terms to lend funds to business and other entities. These commitments include revolving credit agreements, term loan commitments and short-term borrowing agreements. Many of these loan commitments have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of these commitments are expected to expire without being funded, the total commitment amounts do not necessarily represent future liquidity requirements.

HELOC commitments. Commitments to extend, originate or purchase credit are primarily lines of credit to consumers and have specified rates and maturity dates. Many of these commitments also have adverse change clauses, which allow us to cancel the commitment due to deterioration in the borrowers' creditworthiness or a decline in the collateral value.

Other consumer commitments. Conditional commitments issued to accommodate the financial needs of customers. The commitments are under various terms to lend funds to consumers, which include revolving credit agreements, term loan commitments and short-term borrowing agreements.

Standby and commercial letters of credit. Conditional commitments issued to guarantee the performance of a customer to a third party. Standby letters of credit generally are contingent upon the failure of the customer to perform according to the terms of the underlying contract with the third party, while commercial letters of credit are issued specifically to facilitate commerce and typically result in the commitment being drawn on when the underlying transaction is consummated between the customer and the third party. Financial standby letters of credit irrevocably obligate the bank to pay a third party beneficiary when a customer fails to repay an outstanding loan or debt instrument.

We maintain a reserve for the estimate of probable credit losses inherent in unfunded commitments to extend credit. Unfunded commitments to extend credit include unfunded loans with available balances, new commitments to lend that are not yet funded, and standby and commercial letters of credit. A reserve balance of \$3 million at both March 31, 2018 and December 31, 2017, is reflected in other liabilities on the Consolidated Statements of Financial Condition.

Note 17 - Fair Value Measurements

We utilize fair value measurements to record or disclose the fair value on certain assets and liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability through an orderly transaction between market participants at the measurement date. The determination of fair values of financial instruments often requires the use of estimates. In cases where quoted market values in an active market are not available, we use present value techniques and other valuation methods to estimate the fair values of our financial instruments. These valuation models rely on market-based parameters when available, such as interest rate yield curves or credit spreads. Unobservable inputs may be based on management's judgment, assumptions and estimates related to credit quality, our future earnings, interest rates and other relevant inputs. These valuation methods require considerable judgment and the resulting estimates of fair value can be significantly affected by the assumptions made and methods used. Refer to Note 22 - Fair Value Measurements to the consolidated financial statements of the Annual Report on Form 10-K for the year ended December 31, 2017 for a description of our valuation methodologies and information about the fair value hierarchy.

Valuation Hierarchy

U.S. GAAP establishes a three-level valuation hierarchy for disclosure of fair value measurements. The hierarchy is based on the transparency of the inputs used in the valuation process with the highest priority given to quoted prices available in active markets and the lowest priority to unobservable inputs where no active market exists, as discussed below.

Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets in which we can participate as of the measurement date;

Level 2 - Quoted prices for similar instruments in active markets, and other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument; and

Level 3 - Unobservable inputs that reflect our own assumptions about the assumptions that market participants would use in pricing an asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input within the valuation hierarchy that is significant to the overall fair value measurement. Transfers between levels of the fair value hierarchy are recognized at the end of the reporting period.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following tables present the financial instruments carried at fair value by caption on the Consolidated Statement of Financial Condition and by level in the valuation hierarchy.

	March 31, 2018			
	Level 1	Level 2	Level 3	Total Fair Value
	(Dollars in millions)			
Investment securities available-for-sale				
Agency - Commercial	\$ —	\$ 1,092	\$ —	\$ 1,092
Agency - Residential	—	750	—	750
Municipal obligations	—	34	—	34

Rate lock commitments (net) (2)	18	16	53	—	—	(46)	41
Totals	<u>\$ 418</u>	<u>\$ 22</u>	<u>\$ 74</u>	<u>\$ (65)</u>	<u>\$ (6)</u>	<u>\$ (49)</u>	<u>\$ 394</u>
Liabilities							
DOJ litigation settlement	\$ (60)	\$ —	\$ —	\$ —	\$ —	\$ —	\$ (60)

(1) There were no unrealized gains (losses) recorded in OCI during the three months ended March 31, 2018 and 2017.

(2) Rate lock commitments are reported on a fallout adjusted basis. Transfers out of Level 3 represent the settlement value of the commitments that are transferred to LHFS, which are classified as Level 2 assets.

We utilized swaptions futures, forward agency and loan sales and interest rate swaps to manage the risk associated with mortgage servicing rights and rate lock commitments. Gains and losses for individual lines in the tables do not reflect the effect of our risk management activities related to such Level 3 instruments.

The following tables present the quantitative information about recurring Level 3 fair value financial instruments and the fair value measurements as of:

	Fair Value	Valuation Technique	Unobservable Input	Range (Weighted Average)
			(Dollars in millions)	
March 31, 2018				
Assets				
Loans held-for-investment				
			Discount rate	7.2% - 10.8% (9.0%)
			Constant prepayment rate	20.6% - 30.9% (25.8%)
Home equity	\$ 4	Discounted cash flows	Constant default rate	3.0% - 4.5% (3.8%)
			Option adjusted spread	5.3% - 8.0% (6.7%)
			Constant prepayment rate	8.0% - 11.8% (9.9%)
Mortgage servicing rights	\$ 239	Discounted cash flows	Weighted average cost to service per loan	\$62 - \$93 (\$77)
Rate lock commitments (net)	\$ 30	Consensus pricing	Origination pull-through rate	61.9% - 92.9% (77.4%)
Liabilities				
			Discount rate	8.1% - 12.1% (10.1%)
DOJ litigation settlement	\$ (60)	Discounted cash flows	Asset growth rate	5.6% - 23.3% (6.9%)
			Beta	0.6 - 1.6 (1.1)
Contingent consideration	\$ (21)	Discounted cash flows	Equity volatility	26.6% - 58.9% (40.0%)
	Fair Value	Valuation Technique	Unobservable Input	Range (Weighted Average)
			(Dollars in millions)	
December 31, 2017				
Assets				
Loans held-for-investment				
			Discount rate	7.2% - 10.8% (9.0%)
			Constant prepayment rate	5.1% - 7.7% (6.4%)
Home equity	\$ 4	Discounted cash flows	Constant default rate	3.0% - 4.5% (3.6%)
			Option adjusted spread	5.0% - 7.5% (6.3%)
			Constant prepayment rate	8.0% - 11.8% (9.9%)
Mortgage servicing rights	\$ 291	Discounted cash flows	Weighted average cost to service per loan	\$58 - \$87 (\$73)
Rate lock commitments (net)	\$ 24	Consensus pricing	Origination pull-through rate	64.7% - 97.1% (82.0%)
Liabilities				
			Discount rate	7.8% - 11.7% (9.7%)
DOJ litigation settlement	\$ (60)	Discounted cash flows	Asset growth rate	5.6% - 17.4% (6.3%)
			Beta	0.6 - 1.6 (1.1)
Contingent consideration	\$ (25)	Discounted cash flows	Equity volatility	26.6% - 58.9% (40.0%)

Recurring Significant Unobservable Inputs

Home equity. The significant unobservable inputs used in the fair value measurement of the home equity loans are discount rates, constant prepayment rates, and default rates. The constant prepayment and default rates are based on a 12 month historical average. Significant increases (decreases) in the discount rate in isolation would result in a significantly lower (higher) fair value measurement. Increases (decreases) in prepay rates in isolation result in a higher (lower) fair value and increases (decreases) in default rates in isolation result in a lower (higher) fair value. HELOC loans formerly included in the FSTAR 2005-1 and FSTAR 2006-1 securitization trusts, also classified as home equity loans, were valued utilizing a loan-level discounted cash flow model which projects expected cash flows given three potential outcomes: (1) paid-in-full at scheduled maturity, (2) default at scheduled maturity (foreclosure), and (3) modification at scheduled maturity into an amortizing HELOC. Loans are placed into the potential outcome buckets based on their underlying current delinquency, FICO scores and property CLTV all of which are unobservable inputs. These loans were sold in the second quarter of 2017.

MSRs. The significant unobservable inputs used in the fair value measurement of the MSRs are option adjusted spreads, prepayment rates, and cost to service. Significant increases (decreases) in all three assumptions in isolation would result in a significantly lower (higher) fair value measurement. Weighted average life (in years) is used to determine the change in fair value of MSRs. For March 31, 2018 and December 31, 2017 the weighted average life (in years) for the entire MSRs portfolio was 6.3 and 6.0, respectively.

DOJ litigation settlement. The significant unobservable input used in the fair value measurement of the DOJ litigation settlement are the discount rate and asset growth rate, in addition to those discussed in Note 16 - Legal Proceedings,

Contingencies and Commitments. Significant increases (decreases) in the discount rate or asset growth rate in isolation would result in a marginally lower (higher) fair value measurement. For further information on the fair value inputs related to the DOJ litigation settlement, see Note 16 - Legal Proceedings, Contingencies, and Commitments.

Rate lock commitments. The significant unobservable input used in the fair value measurement of the rate lock commitments is the pull through rate. The pull through rate is a statistical analysis of our actual rate lock fallout history to determine the sensitivity of the residential mortgage loan pipeline compared to interest rate changes and other deterministic values. New market prices are applied based on updated loan characteristics and new fallout ratios (i.e., the inverse of the pull through rate) are applied accordingly. Significant increases (decreases) in the pull through rate in isolation would result in a significantly higher (lower) fair value measurement.

Contingent consideration. The significant unobservable input used in the fair value of the contingent consideration is future forecasted target production volumes and profitability of the division. An increase or decrease to these inputs results in an increase or decrease of the liability. Other unobservable inputs include Beta and volatility which drive the risk adjusted discount rate utilized in a Monte Carlo simulation. An increase or decrease in these inputs results in a decrease or increase to the liability.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

We also have assets that under certain conditions are subject to measurement at fair value on a nonrecurring basis.

The following table presents assets measured at fair value on a nonrecurring basis:

	Total (1)	Level 2	Level 3	Gains (Losses)
	(Dollars in millions)			
March 31, 2018				
Loans held-for-sale (2)	\$ 8	\$ 8	\$ —	\$ (2)
Impaired loans held-for-investment (2)				
Residential first mortgage loans	21	—	21	(2)
Repossessed assets (3)	5	—	5	—
Totals	<u>\$ 34</u>	<u>\$ 8</u>	<u>\$ 26</u>	<u>\$ (4)</u>
December 31, 2017				
Loans held-for-sale (2)	\$ 6	\$ 6	\$ —	\$ (1)
Impaired loans held-for-investment (2)				
Residential first mortgage loans	21	—	21	(10)
Repossessed assets (3)	8	—	8	—
Totals	<u>\$ 35</u>	<u>\$ 6</u>	<u>\$ 29</u>	<u>\$ (11)</u>

- (1) The fair values are determined at various dates during the three months ended March 31, 2018 and the year ended December 31, 2017, respectively.
(2) Gains (losses) reflect fair value adjustments on assets for which we did not elect the fair value option.
(3) Gains (losses) reflect write downs of repossessed assets based on the estimated fair value of the specific assets.

The following tables present the quantitative information about nonrecurring Level 3 fair value financial instruments and the fair value measurements:

	Fair Value	Valuation Technique	Unobservable Input	Range (Weighted Average)
	(Dollars in millions)			
March 31, 2018				
Impaired loans held-for-investment				
Loans held-for-investment	\$ 21	Fair value of collateral	Loss severity discount	25% - 30% (29.9%)
Repossessed assets	\$ 5	Fair value of collateral	Loss severity discount	0% - 100% (44.5%)
December 31, 2017				
Impaired loans held-for-investment				
Loans held-for-investment	\$ 21	Fair value of collateral	Loss severity discount	25% - 30% (27.9%)
Repossessed assets	\$ 8	Fair value of collateral	Loss severity discount	0% - 100% (70.9%)

Nonrecurring Significant Unobservable Inputs

The significant unobservable inputs used in the fair value measurement of the impaired loans and repossessed assets are appraisals or other third-party price evaluations which incorporate measures such as recent sales prices for comparable properties.

Fair Value of Financial Instruments

The following table presents the carrying amount and estimated fair value of financial instruments that are carried either at fair value, cost, or amortized cost:

	March 31, 2018				
	Carrying Value	Estimated Fair Value			
		Total	Level 1	Level 2	Level 3
	(Dollars in millions)				
Assets					
Cash and cash equivalents	\$ 243	\$ 243	\$ 243	\$ —	\$ —

Derivative financial instruments, liabilities	(11)	(11)	—	(11)	—

Fair Value Option

We elected the fair value option for certain items as discussed throughout the Notes to the Consolidated Financial Statements to more closely align the accounting method with the underlying economic exposure. Interest income on LHFS is accrued on the principal outstanding primarily using the "simple-interest" method.

The following table reflects the change in fair value included in earnings of financial instruments for which the fair value option has been elected:

	Three Months Ended March 31,	
	2018	2017
(Dollars in millions)		
Assets		
Loans held-for-sale		
Net gain on loan sales	\$ (88)	\$ 53
Loans held-for-investment		
Other noninterest income	\$ —	\$ 1

The following table reflects the difference between the aggregate fair value and aggregate remaining contractual principal balance outstanding for assets and liabilities for which the fair value option has been elected:

	March 31, 2018			December 31, 2017		
	Unpaid Principal Balance	Fair Value	Fair Value Over / (Under) Unpaid Principal Balance	Unpaid Principal Balance	Fair Value	Fair Value Over / (Under) Unpaid Principal Balance
(Dollars in millions)						
Assets						
Nonaccrual loans						
Loans held-for-sale	\$ 7	\$ 7	\$ —	\$ 6	\$ 5	\$ (1)
Loans held-for-investment	5	4	(1)	5	4	(1)
Total nonaccrual loans	\$ 12	\$ 11	\$ (1)	\$ 11	\$ 9	\$ (2)
Other performing loans						
Loans held-for-sale	\$ 4,626	\$ 4,718	\$ 92	\$ 4,167	\$ 4,295	\$ 128
Loans held-for-investment	9	8	(1)	10	8	(2)
Total other performing loans	\$ 4,635	\$ 4,726	\$ 91	\$ 4,177	\$ 4,303	\$ 126
Total loans						
Loans held-for-sale	\$ 4,633	\$ 4,725	\$ 92	\$ 4,173	\$ 4,300	\$ 127
Loans held-for-investment	14	12	(2)	15	12	(3)
Total loans	\$ 4,647	\$ 4,737	\$ 90	\$ 4,188	\$ 4,312	\$ 124
Liabilities						
Litigation settlement (1)	\$ (118)	\$ (60)	\$ 58	\$ (118)	\$ (60)	\$ 58

(1) We are obligated to pay \$118 million in installment payments upon meeting certain performance conditions, as described in Note 16 - Legal Proceedings, Contingencies and Commitments.

Note 18 - Segment Information

Our operations are conducted through three operating segments: Community Banking, Mortgage Originations, and Mortgage Servicing. The Other segment includes the remaining reported activities. Operating segments are defined as components of an enterprise that engage in business activity from which revenues are earned and expenses incurred for which discrete financial information is available that is evaluated regularly by executive management in deciding how to allocate resources and in assessing performance. The operating segments have been determined based on the products and services offered and reflect the manner in which financial information is currently evaluated by management. Each segment operates under the same banking charter, but is reported on a segmented basis for this report. Each of the operating segments is complementary to each other and because of the interrelationships of the segments, the information presented is not indicative of how the segments would perform if they operated as independent entities.

Effective January 1, 2018, operating leases in Community Banking are reflected as loans by reclassifying rental income and depreciation expense to net interest income. In addition, the interest expense on custodial deposits on third party sub-servicing contracts, previously recognized in the Mortgage Servicing segment as loan administration income, is now reflected in the Mortgage Origination segment as a component of net interest income. Prior period segment financial information, related to these changes, has been recast to conform to the current presentation.

The Community Banking segment originates loans, provides deposits and fee based services to consumer, business, and mortgage lending customers through its Branch Banking, Business Banking and Commercial Banking, Government Banking, Warehouse Lending and LHFI Portfolio groups. Products offered through these groups include checking accounts, savings accounts, money market accounts, certificates of deposit, consumer loans, commercial loans, commercial real estate loans, equipment finance and leasing, home builder finance loans and warehouse lines of credit. Other financial services available include consumer and corporate card services, customized treasury management solutions, merchant services and capital markets services such as loan syndications, and wealth management products and services.

The Mortgage Originations segment originates and acquires one-to-four family residential mortgage loans to sell or hold on our balance sheet. The originate-to-sell segment comprises the majority of the lending activity via originations through mortgage branches, call centers, the Internet and third party counterparties. The resulting gains from sales associated with these loans are recognized in the Mortgage Originations segment whereas the interest income on LHFI is recognized in Community Banking.

The Mortgage Servicing segment services and subservices mortgage loans for others on a fee for service basis and may also collect ancillary fees and earn income through the use of noninterest-bearing escrows. Revenue for those serviced and subserviced loans is earned on a contractual fee basis, with the fees varying based on our responsibilities and the status of the underlying loans. The Mortgage Servicing segment provides servicing of residential mortgages for our own LHFI portfolio in the Community Banking segment and our own LHFS portfolio in the Mortgage Originations segment, for which it earns revenue via an intercompany service fee allocation.

The Other segment includes the treasury functions, which include, the impact of interest rate risk management, balance sheet funding activities and the administration of the investment securities portfolios, as well as miscellaneous other expenses of a corporate nature. In addition, the Other segment includes revenue and expenses related to treasury and corporate assets and liabilities and equity not directly assigned or allocated to the Mortgage Originations, Mortgage Servicing or Community Banking operating segments.

Revenues are comprised of net interest income (before the (provision) benefit for loan losses) and noninterest income. Noninterest expenses and provision (benefit) for income taxes are fully allocated to each operating segment. Allocation methodologies may be subject to periodic adjustment as the internal management accounting system is revised and the business or product lines within the segments change.

The following tables present financial information by business segment for the periods indicated:

	Three Months Ended March 31, 2018				
	Community Banking	Mortgage Originations	Mortgage Servicing	Other (1)	Total
	(Dollars in millions)

Note 19 - Recently Issued Accounting Pronouncements

Adoption of New Accounting Standards

We adopted the following accounting standard updates (ASU) during 2018, none of which had a material impact to our financial statements:

Standard	Description	Effective Date
ASU 2018-03	Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10) - Update to 2016-01	January 1, 2018
ASU 2018-02	Income Statement-Reporting Comprehensive Income (Topic 220); Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income	January 1, 2019
ASU 2017-09	Update 2017-09—Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting	January 1, 2018
ASU 2017-05	Other Income - Gains and Losses from the De-recognition of Non-financial Assets (Subtopic 610-20): Clarifying the Scope of Asset De-recognition Guidance and Accounting for Partial Sales of Non-financial Assets	January 1, 2018
ASU 2017-01	Business Combinations (Topic 805): Clarifying the Definition of a Business	January 1, 2018
ASU 2016-18	Statement of Cash Flows (Topic 230): Restricted Cash	January 1, 2018
ASU 2016-16	Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory	January 1, 2018
ASU 2016-15	Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments	January 1, 2018
ASU 2016-01	Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities	January 1, 2018

Accounting Standards Adopted which had a Material Impact

The following ASUs have been adopted which impact our significant accounting policies and/or have a significant financial impact:

Revenue from Contracts with Customers - In May 2014, FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." Under the amended guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration in exchange for those goods or services.

Effective January 1, 2018, we have adopted the requirements of ASU 2014-09, Revenue from Contracts with Customers (Topic 606) and all related amendments. We have implemented the guidance utilizing the modified retrospective approach which did not have a material impact on the Company's financial position or results of operations. As lease contracts and financial instruments, which include loans and securities, are excluded from the scope of this standard, the majority our revenue falls outside of the scope of Topic 606.

The adoption of this guidance does not result in changes to how revenue is recognized or the timing of recognition from our method prior to adoption. Revenue is recognized when obligations, under the terms of a contract with our customer, are satisfied, which generally occurs when services are performed. Revenue is measured as the amount of consideration we expect to receive in exchange for providing services.

The disaggregation of our revenue from contracts with customers is provided below.

	Location of Revenue (1)	Three Months Ended March 31,	
		2018	2017
(Dollars in millions)			
Deposit account and other banking income	Deposit fees and charges	\$ 4	\$ 3
Interchange fees	Deposit fees and charges	1	1
Wealth management	Other noninterest income	2	1
Total		\$ 7	\$ 5

(1) Recognized within the Community Banking segment.

Deposit account and other banking income - We charge depositors various deposit account service fees including those for outgoing wires, overdrafts, stop payments, and ATM fees. These fees are generated from a depositor's option to purchase services offered under the contract and are only considered a contract when the depositor exercises their option to purchase these account services. Therefore we deem the term of our contracts with depositors to be day-to-day and do not extend beyond the services already provided. Deposit account and other banking fees are recorded at the point in time we perform the requested service.

Interchange income - We collect interchange fee income when debit cards that we have issued to our customers, are used in merchant transactions. Our performance obligation is satisfied and revenue is recognized at the point we initiate the payment of funds from a customer's account to a merchant account.

Merchant fee income - We receive a percentage of merchant fees based upon card transactions processed through point of sale terminals at referred merchant locations. Our performance obligation is satisfied when our referral of a merchant to a payment processing vendor results in an executed agreement between the merchant and the vendor. Merchant fee revenue is recognized as received. Merchant fee income was less than \$1 million for the three months ended March 31, 2018 and March 31, 2017

Wealth management revenue - We earn commission income through a revenue share program based on a tiered percentage of total gross commissions generated from the sales of investment and insurance services to Flagstar customers. Commissions are earned and our performance obligation has been satisfied at the point of sale or trade execution. Our portion of earned commissions is calculated, paid and recognized as revenue on a monthly basis.

We also receive revenue from portfolio management services. We receive payment for portfolio management services in advance at beginning of each quarter for services to be performed over the quarter which results an insignificant revenue liability. We recognize this revenue over the quarter on a straight-line basis, as we believe this is the most appropriate method to measure progress towards satisfaction of the performance obligation.

Derivatives and Hedging - In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. The amendments were designed to more closely align hedge accounting requirements with users' risk management strategies. ASU 2017-12 is effective for fiscal years beginning after December 15, 2018 and early adoption is permitted. The Company has early adopted this ASU during the first quarter of 2018. The guidance provides a broader range of hedge accounting opportunities and simplifies documentation requirements for our existing cash flow hedge relationships. In conjunction with adoption of this ASU, the Company elected to transfer \$144 million of investment securities from HTM to AFS during the first quarter of 2018, as permitted by the standard, which resulted in a de minimis impact to OCI.

Accounting Standards Issued But Not Yet Adopted

The following ASUs have been issued and are expected to result in a significant change to our significant accounting policies and/or have a significant financial impact:

Credit Losses - In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326). The ASU alters the current method for recognizing credit losses within the reserve account. Currently, an institution uses the incurred loss method, whereas the new guidance requires financial assets to be presented at the net amount expected to be collected (i.e., net of expected credit losses). The measurement of expected credit losses should be based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019. We have established an internal steering committee to lead the implementation efforts. The steering committee is in the process of evaluating control and process framework, data, model, and resource requirements and areas where modifications will be required. We are currently evaluating the impact the adoption of the guidance will have on our Consolidated Financial Statements, and highlight that any impact will be contingent upon the underlying characteristics of the affected portfolio and macroeconomic and internal forecasts at adoption date.

Leases - In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) which supersedes Topic 840. The guidance requires lessees to recognize substantially all leases on their balance sheet as a right-of-use asset and a lease liability. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting. ASU 2016-02 is effective retrospectively for fiscal years beginning after December 15, 2018 and early adoption is permitted. Upon adoption and implementation, we expect to gross up assets and liabilities due to the recognition of lease liabilities and right of use assets associated with the underlying lease contracts. While we do not expect the adoption of the guidance to have a material impact on our Consolidated Statements of Operations given our current inventory of leases, review is ongoing and we will continue to evaluate the impact to the Consolidated Statements of Financial Condition and to capital. In January 2018, the FASB issued ASU 2018-01 Leases (Topic 842), Land Easement Practical Expedient for Transition to Topic 842, as we do not currently have land easements, this update does not currently have a financial impact.

The following ASUs have been issued and are not expected to have a material impact on our Consolidated Financial Statements and/or significant accounting policies:

Standard	Description	Effective Date
ASU 2017-11	Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Non-controlling Interests with a Scope.	January 1, 2019
ASU 2017-08	Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20); Premium Amortization on Purchased Callable Debt Securities	January 1, 2019
ASU 2017-06	Plan Accounting - Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting	January 1, 2019
ASU 2017-04	Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment	January 1, 2020

Item 3. Quantitative and Qualitative Disclosures about Market Risk

A discussion regarding our management of market risk is included in "Market Risk" in this report in "Management's Discussion and Analysis of Financial Condition and Results of Operations" which is incorporated herein by reference.

Item 4. Controls and Procedures

- (a) *Evaluation of Disclosure Controls and Procedures.* As of March 31, 2018, pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended ("Exchange Act"), an evaluation was performed by the Company's management, including our principal executive and financial officers, regarding the design and effectiveness of our disclosure controls and procedures. Based upon that evaluation, the principal executive and financial officers have concluded that our current disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms as of March 31, 2018.
- (b) *Changes in Internal Controls.* There have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(d) of the Exchange Act) during the three months ended March 31, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings

From time to time, the Company is party to legal proceedings incidental to its business. For further information, see Note 16 - Legal Proceedings, Contingencies and Commitments.

Item 1A. Risk Factors

The Company believes that there have been no material changes to the risk factors previously disclosed in response to Item 1A. to Part I, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Sale of Unregistered Securities

The Company made no sales of unregistered securities during the quarter ended March 31, 2018.

Issuer Purchases of Equity Securities

The Company made no purchases of its equity securities during the quarter ended March 31, 2018.

Item 3. Defaults upon Senior Securities

The Company had no defaults on senior securities.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

Exhibit No.	Description
3.1	Second Amended and Restated Articles of Incorporation of Flagstar Bancorp, Inc. (previously filed as Exhibit 3.1 to the Company's Quarterly Report on Form 10-Q, for the period ended June 30, 2017, and incorporated herein by reference).
3.2	Sixth Amended and Restated Bylaws of the Company (previously filed as Exhibit 3.2 to the Company's Quarterly Report on Form 10-Q, for the period ended September 30, 2016, and incorporated herein by reference).
4.1	Indenture, dated July 11, 2016, between Flagstar Bancorp, Inc. as Issuers and Wilmington Trust, National Association, as Trustee and Collateral Agent, including the form of 6.125% senior secured note due 2021 (previously filed as Exhibit 4.1 to the Company's Current Report on Form 8-K, dated July 11, 2016, and incorporated herein by reference).
4.2	Registration Rights Agreement, dated as of July 11, 2016, among Flagstar Bancorp, Inc., J.P.Morgan Securities LLC and Sandler O'Neill & Partners, L.P. as representatives of the initial purchasers (previously filed as Exhibit 4.3 to the Company's Current Report on Form 8-K, dated July 11, 2016, and incorporated herein by reference).
4.3	Form of 6.125% Global Note due 2021 (previously filed as Exhibit 4.3 to the Company's Registration Statement on Form S-4, dated October 7, 2016, and incorporated herein by reference).
10.1	2016 Stock Award and Incentive Plan Restricted Stock Unit Senior Executive Officer Award Agreement - 4 year ratable (previously filed as Exhibit 10.1 to the Company's Current Report on Form 8-K, dated March 26, 2018, and incorporated herein by reference).
10.2	2016 Stock Award and Incentive Plan Restricted Stock Unit and Performance Share Unit Senior Executive Officer Award Agreement - SEO Performance (previously filed as Exhibit 10.2 to the Company's Current Report on Form 8-K, dated March 26, 2018, and incorporated herein by reference).
10.3	Executive Long-Term Incentive Program Award Agreement II (\$44 VWAP) (previously filed as Exhibit 10.3 to the Company's Current Report on Form 8-K, dated March 26, 2018, and incorporated herein by reference).
10.4	Executive Long-Term Incentive Program Award Agreement II (\$40 VWAP) (previously filed as Exhibit 10.4 to the Company's Current Report on Form 8-K, dated March 26, 2018, and incorporated herein by reference).
10.5	2016 Stock Award and Incentive Plan Restricted Stock Unit Senior Executive Officer Award Agreement - SEO Time (previously filed as Exhibit 10.5 to the Company's Current Report on Form 8-K, dated March 26, 2018, and incorporated herein by reference).
11	Statement regarding computation of per share earnings is incorporated by reference to Note 12 of the Notes to the Consolidated Financial Statements, in Item 1. Financial Statements.
31.1	Section 302 Certification of Chief Executive Officer
31.2	Section 302 Certification of Chief Financial Officer
32.1	Section 906 Certification, as furnished by the Chief Executive Officer
32.2	Section 906 Certification, as furnished by the Chief Financial Officer
101	Financial statements from Quarterly Report on Form 10-Q of the Company for the quarter ended March 31, 2018, formatted in XBRL: (i) the Consolidated Statements of Financial Condition, (ii) the Consolidated Statements of Operations, (iii) the Consolidated Statements of Comprehensive Income (Loss), (iv) the Consolidated Statements of Stockholders' Equity, (v) the Consolidated Statements of Cash Flows and (vi) the Notes to the Consolidated Financial Statements.

101	Financial statements from Quarterly Report on Form 10-Q of the Company for the quarter ended March 31, 2018, formatted in XBRL: (i) the Consolidated Statements of Financial Condition, (ii) the Consolidated Statements of Operations, (iii) the Consolidated Statements of Comprehensive Income (Loss), (iv) the Consolidated Statements of Stockholders' Equity, (v) the Consolidated Statements of Cash Flows and (vi) the Notes to the Consolidated Financial Statements.

Section 2: EX-31.1 (EXHIBIT 31.1)

I, Alessandro P. DiNello, certify that:

- 1) I have reviewed this quarterly report on Form 10-Q of Flagstar Bancorp, Inc. (the "registrant");
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrants' internal control over financial reporting that occurred during the registrants' most recent fiscal quarter (the registrants' fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

SECTION 302 CERTIFICATION

I, James K. Cirolì, certify that:

- 1) I have reviewed this quarterly report on Form 10-Q of Flagstar Bancorp, Inc. (the "registrant");
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading

with respect to the period covered by this report;

- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrants' internal control over financial reporting that occurred during the registrants' most recent fiscal quarter (the registrants' fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 4: EX-32.1 (EXHIBIT 32.1)

EXHIBIT 32.1

SECTION 906 CERTIFICATION

In connection with the annual report of Flagstar Bancorp, Inc. (the "Company") on Form 10-Q for the period ended March 31, 2018, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Alessandro P. DiNello, President and Chief Executive Officer of the Company, certify, to the best of my knowledge, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
